Seek Release Of U. S. Pilot

France Requests
Information at
Washington Behest

Paris — The U. S. embassy today asked France to get information on a U. S. Air Force jet pilot forced down in communist Albania.

The pilot apparently is Maj. Howard J. B. Curran of Pratt, Kan., and Tacoma, Wash., who disappeared Dec. 23 in a T-33 jet trainer on a flight from Lake, Ill., to Chateauroux, France, to Na-

The United States has no diplomatic relations with the Soviet satellite of the Adriatic, but France has a legation said only one unidentified there. The French performed a similar mission for Britain when the Albanians forced down a British cargo plane with six persons aboard on New Year's eve. The plane and the Britons were released Saturday.

A French foreign ministry spokesman said so far the American embassy had asked only for information on the jet pilot and his plane not for the French to take action to secure his release. The Americans apparently were waiting for confirmation of his identity and to learn the circumstances of his downing.

Radio Tirana said Albanian jet fighters forced down a U. S. T-33 which trespassed over Albanian territory.

No Further Word On Soviet Rocket

By the Associated Press

Dispatches from Moscow Wednesday made no mention of Monday's report about a Russian man-carrying rocket.

The latest dispatches Tuesday, quoted Soviet officials in a position to know as saying they had no information about it. Questioned along similar lines a Soviet foreign office spokesman said he was unable to say anything about the rocket published abroad.

It's About Time the Weather Turned Fair

Fox Cities — Fair and not so cold tonight. Thursday mostly fair and warmer. Low tonight 12-18. High Thursday in the mid 30s.

Appleton temperatures for the 24-hour period ending at 9 o'clock this morning: High 18, low 11. Temperature this is only a temporary lull of the type we must expect from 19, with the wind from the southwest at 11 miles an hour.

No precipitation. Snow remains up to expectations, it will be a moon rises tonight at 8:26. The NRMA directors elect a prominent stars are Regulus, new president and other officers today and the organization today and the organization

Weeks Says Cost of Road Network Jumps \$10 Billion

Suspect Held For Questioning In Two Slayings

Bodies of Couple
Found in Auto
At Fond du Lac

Fond du Lac — A 30-year-old Fond du Lac man sought for questioning in the gunshot slaying of his former fiancée and her escort was taken into custody today several hours after the bodies were found.

Police Chief James D. Cahill, who had put out a statewide pickup order, said the man was apprehended by a Fond du Lac county policeman while driving near Waupun. Cahill said he offered no resistance and was taken to Waupun police headquarters to await the arrival of officers from Fond du Lac.

Cahill did not identify the man he described as a reject ed suitor. He said there was no charge against him.

Found By Passerby
Cahill said a policeman, summoned by a passerby discovered the bullet-pierced bodies of Miss Marie Riel, 26, route 2, Brandon, and Wallace F. Madison, 33, Bonduel, Shawano county, in the front seat of Madison's car about 8 a.m. today.

Both had been shot in the head, apparently with a .45 automatic pistol. No weapon was found, but police picked up six or seven spent bullets in the automobile.

Engagement Broken
Chief Cahill said a pickup order had been sent out for Miss Riel's former fiancée. The man was said to have brooded since the engagement was broken off by Miss Riel several weeks ago. He did not return to his rooming house Tuesday night, according to the chief.

The car in which the bodies were found was parked in front of Miss Riel's apartment house, near the downtown district.

Miss Riel was employed at a local factory Madison worked for a freight company in Fond du Lac.

Won't Yield Line, Fire Destroys Home

Wausau — A large farm-house near Wausau burned to the ground Tuesday after two up for Earl Wausau talking on a rural party line refused to relinquish the telephone so the fire department could be called.

Assistant Fire Chief Michael Gerum said that Mrs. William Krut told him she pleaded with the two women on the party line after she discovered the fire on the second floor of never's juvenile court approved the arrangement yesterday.

When they wouldn't give up the phone, she had to run to an alarm at Springfield, Colo., all that one tractor would be clear the next farm to use another ready had dismissed a murder charge against Earl

Severe Winter Gale Strikes East From Maine to Florida

Storm Moving Northeast
Toward Canadian Provinces

New York — A fierce winter storm which cost at least 16 lives moved northeast toward the Canadian maritime provinces today after pummeling the east coast — from Maine to Florida — with a staggering variety of elements.

Weathermen termed it "one of the most intense coastal storms of recent years." Although skies cleared today over most of the middle and south Atlantic states, bone-chilling cold was forecast for New England.

The tempest thrashed the seaboard with avalanches of snow, wind gusts up to 75 miles an hour, sleet, rain and lightning. In New England it snarled automobile traffic, forced business houses to close, tumbled power lines and closed schools.

16-Inch Snow
Augusta, Maine, was hit by 16 inches of snow. Atlantic City, N. J., got 13.3 inches — the biggest downfall there in nearly 17 years.

Florida, with its citrus crop already hard hit by an earlier cold spell, was handed another blow. Snow fell in the sunny state as far south as Lakeland in the heart of the citrus growing area.

For the first time in history, the Florida Weather bureau included snow flurries in its state forecast.

On the heels of the storm, New England got a weather bureau warning that some of the bitterest cold weather of the season was on the way. Temperatures of 15 below zero were forecast for northern Maine tonight.

New Start for Boy Who Killed Father

Denver — Earl Wear, 12, wanted to go to work in the fields. Leonard Wear, 46, insisted his son stay in school.

So Earl shot and killed his father as he slept Oct. 9 at their home at Pritchett, Colo.

The prospect of a new start wanted to go to work in the fields. Leonard Wear, 46, insisted his son stay in school.

Fly to Visit Red Captives

3 Mothers on Last
Lap of Their Trips
To Sons in Prisons

Hong Kong — Three American mothers flew north from Canton today to visit their sons in red Chinese prisons.

Mrs. Ruth Redmond of Yonkers, N.Y., left the South China port city first on a flight to Shanghai. Her businessman son Hugh, 38, has been in prison there since 1951, serving a life sentence on espionage charges.

Mrs. Jessie Fecteau of Lynn, Mass., and Mrs. Mary Downey of New Britain, Conn., left later on a flight to Peking. Richard Fecteau and John Downey have been held since 1952 on spying charges, sentenced to 20 years and life, respectively.

Mrs. Downey was accompanied by another son, William 25. He also saw Mrs. Redmond off at the airport and said she was "in good spirits—there were no tears."

At Least 6 Dead in Norwegian Tragedy

Bodoe, Norway — Fire slayments and promotion to 4 of view trapped passengers below star rank.

"I can do better for the army said Dulles 'made a very help-early stages and that the 1956 full statement' and 'I feel a law requires four more cost estimates in later years."

Most of the questioning of Dulles was said to have been friendly.

He noted that work on the interstate program was in the early stages and that the 1956 full statement' and 'I feel a law requires four more cost estimates in later years."

Quick Approval Indicated for Defense Funds

McElroy and Aides
To Offer Testimony
On Need for Money

Washington — A White House request for \$1,260,000,000 in new defense funds received top congressional priority today, with indications of quick approval.

The house defense appropriations subcommittee called a closed-door session to hear Secretary of Defense McElroy and his top aides explain the need for the money.

President Eisenhower requested the hurry-up supplemental appropriation yesterday only a few hours after congress had convened for its new session.

Expecting Early Action
Chairman Mahon (D-Texas) said he hoped to conclude the hearings within 10 days and have legislation ready for consideration by the house this month. The missile money bill is expected to be the first major legislation considered this year.

Mahon said "it is my feeling that congress will quickly provide funds for the missile program."

House Speaker Sam Rayburn (D-Texas) said he favors appropriating "whatever money is necessary" for defense programs.

Similar indications of quick favorable consideration of the bill came from the senate where Republican Leader Knowland (Calif) said "the senate appropriations committee will be able to give it consideration just as soon as the house acts."

Democratic Leader Lyndon B. Johnson (Texas) joined in calling it "certainly a step in the right direction."

Gavin Firm on His Retirement

Washington — Lt. Gen. James M. Gavin, army research chief, told senators today that his decision to retire March 31 is "final" despite the Pentagon offers of choice assignments and promotion to 4 of view.

Rep. Brooks Hays (D-Ark) said Dulles "made a very help-early stages and that the 1956 full statement' and 'I feel a law requires four more cost estimates in later years."

Secretary of Commerce Recommends Program in Spite of Higher Figures

Washington — Secretary of Commerce Weeks reported to congress today that the estimated cost of completing the nation's 41,000-mile superhighway network has jumped \$10 billion.

Nevertheless, he recommended that new apportionments to the states be based on the higher cost figures.

In a report required by the 1956 act which set up the interstate system of expressways linking all parts of the country, Weeks said that the total cost

of the network now was estimated at \$37,622,000,000. This compares with the \$27,645,000,000 figure used when the law was passed 19 months ago.

In the report, the secretary also released a state-by-state breakdown of the estimates of the money required to complete the portion of the interstate system within each state's borders.

This is important because the 1956 law provided that the apportionment of federal funds to the states for the last 10 years of the program shall be based on the estimates of needs of each one to finish its part of the superhighway network. Washington pays 90 per cent of the cost of the interstate system.

Estimates For Midwest
Here are the latest state-by-state estimates of total cost of completion for middle western states. The estimates, which include federal and state funds, are compared with the estimates made when the 1956 highway act was passed and included:

Wisconsin \$383,409,000 in the 1956 estimates and \$445,253,000 under the new estimates.
Minnesota \$573,733,000 and \$723,574,000.
Illinois \$1,263,317,000 and \$1,893,807,000.
Michigan \$1,536,391,000 and \$1,450,817,000.
Iowa \$328,242,000 and \$411,004,000.

Rep. Barratt O'Hara (D-Ill.) said Dulles briefed the legislators first three years of the program now under way were based on a situation and was emulated in his objections to an chiefly population and current east-west summit meeting at road mileage.

Reports On Progress
"That was the matter that he was most forceful on — the possibility of further conversations before the senate public roads with the Russians at a high level-subcommittee headed by Sen. Gore (D-Tenn) to give a progress report on the interstate system."

The new estimates were necessary before such a worked out by the bureau of public roads in cooperation with the various state highway departments.

The secretary said that, even if drafted a reply to a letter though the cost estimates were from Soviet Premier Bulganin up 37 per cent as compared with the estimates of two years ago, he would not recommend any increase in the cost of the program.

He noted that work on the interstate program was in the early stages and that the 1956 full statement' and 'I feel a law requires four more cost estimates in later years."

"As construction of the interstate system progresses toward completion and as the amount of remaining work correspondingly decreases," Weeks said, "future estimates of cost will be made on a broader basis of experience and these estimates will progressively become more accurate by reflecting actual trends in cost, either upward or downward, that cannot be forecast as well now."

"Until this additional experience is acquired, consideration of any adjustments in author-

Boy Dies in Tractor Accident; Dad Killed Same Way Last June

Alma Center — A high school senior who had been operating the family farm since his father was killed in a tractor accident last June was crushed to death by the same tractor Tuesday night.

The body of Larry Cummings, 18, of route 1, Alma Center, was found in a field by a brother-in-law. The tractor, its lights still on, was moving through the field. Cummings apparently had been caught in the power take-off and crushed as he stepped off the tractor to check the manure spreader it was pulling.

Wilbur Cummings, 45, the youth's father, was killed June 24 when the tractor crushed him in a machine shed. The father had used the tractor to win the Jackson county plowing championship.

Larry is survived by his mother and four brothers and sisters.

Rocco Di Giallonardo, 28, Denver, Colo., stands beside his smashed automobile Tuesday after riding out, unhurt, a plunge from the Valley Highway (above car). Di Giallonardo told police he swerved to avoid a collision with another car cutting in front of him. But Patrolman Salvador Rivera gives him a citation charging he was driving the wrong way on a one-way street. (AP Wirephoto)

Says 'Temporary Lull' May Lead To Good Business Year for Nation

New York — Wendell B. Barnes, administrator of the National Business Administration, said today that the nation's economy is passing through a "temporary lull" and 1958 may develop into a comparatively good business year.

Barnes addressed the 47th annual convention of the National Retail Merchants Association—Retail Merchants Association—cold tonight. Thursday mostly fair and warmer. Low tonight 12-18. High Thursday in the mid 30s.

Appleton temperatures for the 24-hour period ending at 9 o'clock this morning: High 18, low 11. Temperature this is only a temporary lull of the type we must expect from 19, with the wind from the southwest at 11 miles an hour.

No precipitation. Snow remains up to expectations, it will be a moon rises tonight at 8:26. The NRMA directors elect a prominent stars are Regulus, new president and other officers today and the organization today and the organization

Ike Ready to Back Missile Fund Plea

President Said to be Preparing Hard Hitting Message to Congress Tackling Major Issues Head-on

Washington — President Eisenhower was described by a high government official today as ready to back his request for new missile and air defense funds with a hard hitting message to congress.

The official, who has seen advance drafts of the state of the union address, Eisenhower said today is not a message of platitudes or complacency. He added that to be called by name, but added: "The president intends to tackle the major problems

Huber Law in Need of Change, Report Claims

Certain Revisions Necessary to Make It Fully Workable

Madison — Wisconsin's 45-year-old Huber law, the first of its kind in the nation, needs revision and clarification according to a report issued Tuesday by the corrections division of the state department of public welfare.

Sanger Powers, head of the division, said the report represented the first attempt to gather from every county information covering the law which permits county jail prisoners to work outside the jail during the day time.

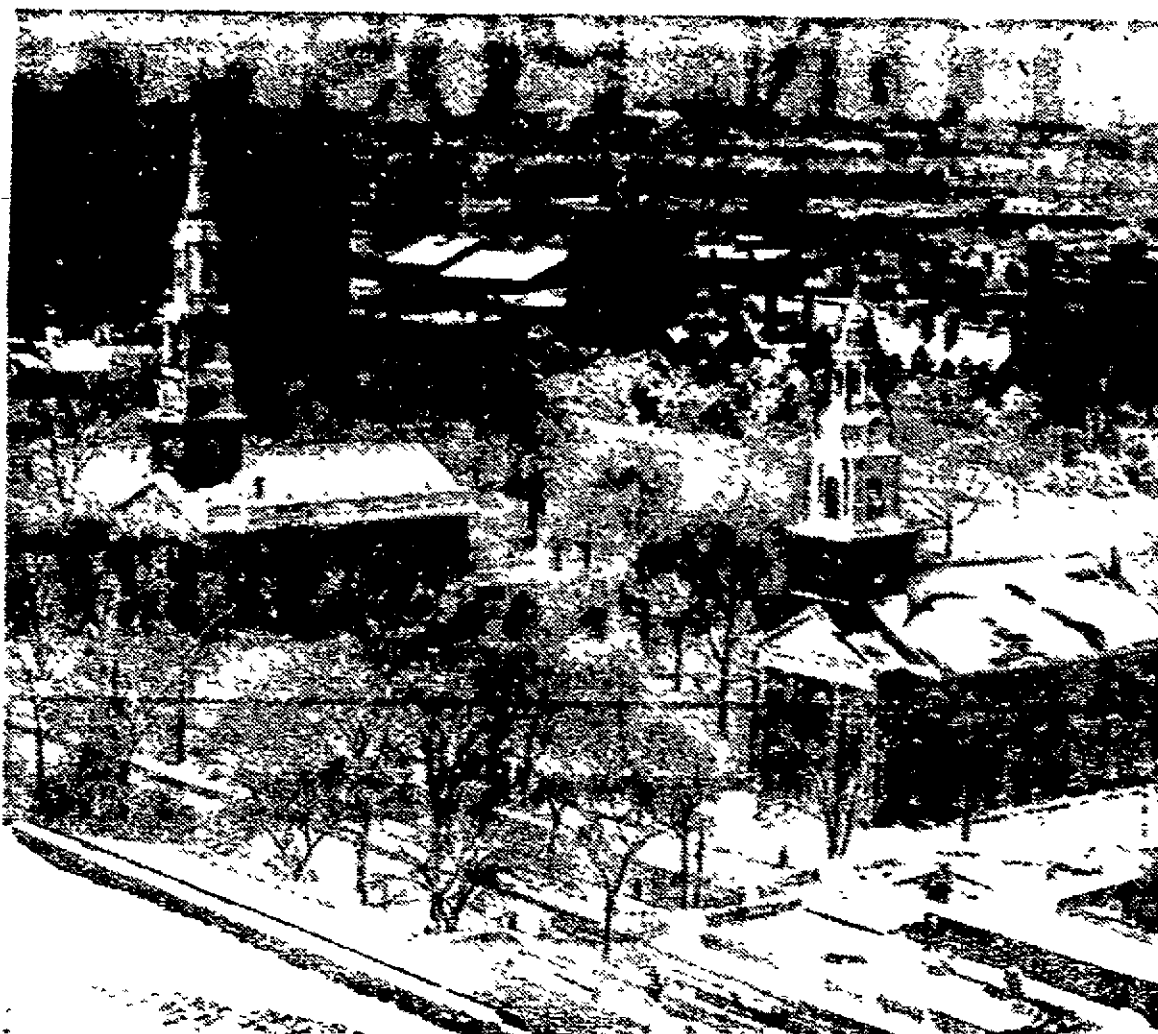

2,600 Sentenced This report, covering the year 1956, showed that 2,600 prisoners were sentenced under the law, while the majority of the 31,000 persons held overnight or longer in county jails in the same year were confined to the institutions.

The law's disadvantages, the report said, include its failure to apply to violators of county and municipal ordinances. Only 21 of the state's 71 sheriff's used the law when permitted to by a court, and 32 used it when ordered by a court.

The study showed, the department said, that employment must be available, the sheriff's staff must be large enough to handle bookkeeping, and the Huber law prisoners must be segregated if the law is to work to best advantage.

Earned \$364,232 The report said that during 1956 the Huber law prisoners, including 73 women, earned \$364,232 while working outside the jails. Of the total \$146,300 went for support of dependents; \$86,667 for prisoner maintenance; \$36,458 for payment of debts, and \$16,169 to the counties.

The law, enacted in 1913, was changed during the 1957 legislative session to prevent counties from returning any part of the prisoners' earnings.

The Season's Worst Snowstorm Turned the New Haven Green into this Christmas card setting. A fall of 14 1/2 inches was officially recorded before the storm ended. (AP Wirephoto)

'Model' Boy Arrested as Killer of Store Clerk

16-Year-Old Admits Shooting Man During Robbery of Liquor Store in California

Los Angeles — A sixteen-year-old Nyls Anderson is the son of a civic leader and school principal in suburban Norwalk. The youth is an Explorer Scout, attends church regularly and works after school in a supermarket for spending money.

A model boy? A killer and a member of a teenage gang of liquor store robbers, sheriff's deputies yesterday told his shocked father. "This murder thing is so unbelievable I don't know what to say — it's so out of character," said the father, Nyls T. Anderson.

Officers said young Anderson, with his brother Aaron, 14, were members of a gang that took about \$400 in three robberies. In one, liquor store clerk Paul Robertson was fatally shot last Dec. 26.

Dog Shot In another two weeks earlier, a German Shepherd watchdog was shot and finally had to be destroyed. Deputies said young Nyls Anderson, wielding a .22 caliber revolver — was the trigger man on both jobs.

He and another youth were arrested Sunday as runaways in hasn't really sunk in yet.

Actress Faye Emerson Wins Mexican Divorce

Mexico City — Faye Emerson's attorney says the actress and TV panelist has been granted an uncontested Mexican divorce from orchestra leader Skitch Henderson.

Francisco Lopez Figueroa said the decree, approved Dec. 5 by an Acapulco judge, has just been countersigned by the governor of the state of Guerrero.

The divorce will become effective after it is recognized by the interior and foreign relations departments and the U.S. consulate. Miss Emerson filed her petition Nov. 23 on grounds of "separation from the marital home for over six months."

Singer David Street Weds Fourth Actress

Hollywood — Singer David Street has wed a fourth actress—Sharon Lee. Friends disclosed yesterday their secret marriage last Dec. 14 in Las Vegas, Nev. The couple obtained a marriage license under their real names, Sharon Lee Tillinghast and Patrick Devlin.

Miss Lee gave her age as 26. Street listed his as 35. He was previously married to actress Mary Street. Lois Andrews, and Mary Beth Hughes, Miss Lee's one previous marriage was to Frederick Tillinghast III.

This seems so unreal it hasn't really sunk in yet.

Dairy Delegates Fail To Agree on Type of 'Self-Help' Program

Ask Congress to Block Any Cut in Supports Pending Study of Problem

Madison — Dairy representatives meeting here Tuesday failed to agree on a self-help program and asked congress to block any cut in dairy price supports until lawmakers

have an opportunity to consider "acceptable alternatives." The action was taken at the close of a 2-day meeting by dairymen representing farm bureaus in nine midwestern states.

Earlier in the day the delegates voted support for a stand by the board of directors of the Wisconsin Farm Bureau against a support price cut ordered by the Secretary of Agriculture Benson. However, the representatives decided to reconsider the action, and on the new vote asked congress to study alternatives.

Benson has ordered dairy supports reduced next April 1 from 83 to 75 per cent of parity, the standard measuring farmer income against his purchasing power.

As the conference closed, Curtis Hatch, Madison, president of the Wisconsin Farm Bureau, said his directors did not seek to tie the dairy industry to a price return of 83 per cent of parity by seeking reversal of Benson's order. Instead, he said, dairy farmers need a breathing spell to put organization to work and obtain an even better price than the \$3.25 a hundredweight the 83 per cent level insures for milk going into manufactured products, such as butter and cheese.

A show of hands indicated that about 60 per cent of the dairymen present opposed the

self-help program that would include a tax on milk to finance disposing of surpluses.

Milk Concentrate The delegates did approve a resolution asking the parent organization, the American Farm Bureau, to begin movement to classify as a store-shelf item the new fresh milk concentrate developed by a team of University of Wisconsin researchers.

The resolution was offered by Percy Hardiman of Hartland after Charles Schuman, Chicago, AFB president, said that under some regulations the new concentrate might be barred from 32 states by trade barriers unless it was sold in drug stores.

Leading Actress Of Early 1900s Dies in Toronto

Toronto — One of America's leading actresses early in this century, Margaret Anglin, died yesterday in a Toronto nursing home at 81.

Miss Anglin rose to stardom playing Roxanne in Richard Mansfield's production of "Cyrano de Bergerac" just before the turn of the century. After a string of successes with Henry Miller in the early 1900s, she toured with James O'Neill and then became a leading interpreter of Greek tragedy.

Playgoers of later years remembered her in "The Woman of Bronze" in 1927, "Diplomacy" in 1928 and "Security" in 1929. She scored as a comedienne as well as a dramatic actress by her marriage to artist Paul Clemens.

The 6-pound boy Paul Day of commons at the time of her Clemens, was born last night. In 1911 she married How-Miss Parker's children by her and Hull, a considerably young-marriage to the late producer or author-playwright-actor who Bert Friedlob and Susan, 9; died about 20 years ago. They Sharon, 7, and Richard, 5, had no children.

Charges Fly In Battle to Control Firm

Opposing Sides in Brewery Dispute Air Views in Court

Waukesha — Charges and countercharges were listed Tuesday as opposing directors locked in a bitter fight for control of the Fox Head Brewing company aired their views before Circuit Judge William Gramling who promised a ruling today.

Defendants in the action are Joseph P. Antonow, Chicago attorney; Alexander R. Morse, New York stock broker, and Charles M. Fergang, New York restaurant owner and retail liquor dealer.

Board of Directors The suit was filed by Arthur Feicht, Chicago insurance broker, and Frank Huber of Milwaukee, members of the board of directors, and Leo Calvey of Milwaukee, a non-director who is secretary and controller.

Feicht, former chairman of the board; Huber, former president; and Calvey secured a temporary injunction preventing the other three from taking over management and installing their own slate of officers.

First Circuit Case Tuesday's hearing was on whether the injunction should be made permanent or vacated. It was the first circuit court case for Judge Gramling, former county judge recently elected to the higher bench.

A. B. Ebern, Chicago, attorney for the defendants, said "there really was no reason for the suit because the board actions constituted a 3-2 majority." He asked Judge Gramling to vacate the order and call a special stockholders' meeting to settle the dispute.

Could Run Off Another attorney for the defendants, Victor Harding of Milwaukee, told the court the only reason the action was filed "was so the former president and former secretary-treasurer can use the arm of this court to perpetuate themselves in office."

Morris Karon, Milwaukee, attorney for the plaintiffs, agree that a stockholders' meeting should be held, but objected to ending the injunction. He said that if the writ were vacated, "there would be nothing to prevent the rump directors from closing the brewery and running off with the assets."

Milwaukee Man State's 12th Traffic Fatality

Milwaukee — The Wisconsin traffic toll for 1956 was 12 today, one less than a year ago at this same time, following the death of an elderly Milwaukeean.

John Ditschert, 72, died Tuesday of a skull fracture and brain injuries suffered Monday when struck by a car as he walked across a Milwaukee street only a short distance from his home.

Today's Chuckle

All families should have three children, so that if one of them is a genius there will be two others to support him. (Copr. 1956)

Appleton Post-Crescent

Entered as second class matter Feb. 1920, at the postoffice at Appleton, Wis. under the Act of March 3.

Audit Bureau of Circulations

225 New House Bills Introduced

Washington — Congressmen introduced about 225 new bills on the opening day of the new session.

The house clerk's office reported this was about normal for the start of a second session of congress—but enough to keep house assistants counting and numbering far into the night.

In the senate, a spokesman said, the custom is to hold off on new legislation until the president delivers his state of the union message due tomorrow.

The 1958 bills come atop of a sizable pile already introduced in the 85th congress' first session last year. The first session total came to 10,716 bills in the house and 3,297 in the senate.

The main is abnormally large because the club's directors may decide to build a swimming pool near the new clubhouse addition. (Post-Crescent Photo)

Tighter Specifications

Board Wants to Start Over on Insurance Bids

Specifications for \$2,000 group life insurance policies for all full-time city employees and officials will be rewritten and bids called again if the council backs its board of public works.

The works board Tuesday voted to toss out all of the more than 30 bids submitted Nov. 26 and recommend re-advertising for new ones under tighter specifications.

Board members expressed dissatisfaction with the variety of proposals the first time. Plans being offered for \$1,000 insurance for all or some and a walter of other schemes.

The Gulf between individual bids led to a parade of agents before board members outside board meetings.

To Furnish Sheet City Clerk Elden Broehm this time will furnish each bidder with a sheet which he is to fill out. Again the specifications in

a general way will call for \$2,000 life insurance for each full-time city employee, regardless of age, and all full-time city elected officials.

Aldermen and all part-time city employees will be excluded. The company which wins the award will have until a deadline date to sign up at least 75 per cent of the eligible employees or the plan will fail.

When the award is determined, the board will have to set the amount which the city will pay toward the premium for the employee. The amount is limited by state statute.

Other Action In other action involving insurance bids:

Broehm was ordered to notify Welfare Plans, Inc., a Milwaukee employe benefit programing firm, that the city is re-advertising. The firm, in a letter, had offered its services.

August W. Appel, candidate for Sixteenth ward alderman, notified the board he was withdrawing his bid on the insurance because he is a candidate and "to make sure there will be no criticism."

Lawrence Director To Address Conference

Edward J. Roberts, director of admissions at Lawrence college, will address a state-wide guidance conference at Stout State college Thursday on "Making the Most of Educational Scholarship and Loan Programs." Over 500 participants from three states will attend.

Roberts will speak at one of the 18 sectional meetings scheduled during the day. Key-note speaker is Dr. Walter F. Johnson, professor of guidance at Michigan State university and president-elect of the American Personnel and Guidance Association, Inc.

Pure Oil Company Recommended for Gasoline Contract

The Pure Oil company, Chicago, Tuesday submitted the low bid to furnish the city with about 7,500 gallons of gasoline and was recommended by the board of public works for the contract.

Pure Oil quoted 13.965 cents a gallon minus a 1 per cent discount for gasoline of 91 octane.

Other bidders and their bids: Cities Service Oil company, Milwaukee, 15.15 cents a gallon, 1 per cent discount, 93 octane.

Standard Oil company, Green Bay, 15.12 cents, 1 per cent, 92.4 octane.

\$1,028 Received In Advance Gifts For Polio Drive

A total of \$1,028 has been received in the March of Dimes advance gifts division. Karl Baldwin, division chairman, told polio workers at a report luncheon Tuesday noon.

He said his division sent out 682 letters asking for contributions and received 96 replies within one week. "This amounts to a 14 per cent return and if this response keeps up we'll have the largest advance gifts campaign ever," Baldwin noted.

The annual campaign will continue through the end of the month and money collected will be used for the rehabilitation of 91 polio victims in Outagamie county.

ONE HOUR AT ARTHUR MURRAY'S AND YOU CAN GO DANCING TONIGHT!

Everybody has the talent to dance and with Arthur Murray's easy-to-learn key to all dances—The Magic Step—even a beginner can go dancing in almost no time. Just put yourself in the hands of an Arthur Murray teacher and in one hour you'll be doing The Magic Step without thinking. And very soon after that you will be gliding about the floor with carefree confidence, doing any tricky dance the orchestra might play. You'll find, too, that learning at Arthur Murray's is made even easier and pleasant due to his talented teachers. Hand-picked and carefully trained, they really know how to bring out a pupil's dormant ability. So don't be a sideline sitter, come into Arthur Murray's now and get started on a life of good times and popularity. Studios open 11 a.m. to 11 p.m., and visitors are always welcome.

Campbell's Appleton Store Only

A 200-Bed Portable Hospital was delivered to Appleton Tuesday afternoon and was stored in the basement of the new Outagamie county courthouse annex. Shown as they examined the crated equipment are Michael Gerharz, Kaukauna civil defense director; R. C. Beltrone, Appleton civil defense director; Andrew J. Schiltz, county civil defense coordinator; and Quentin Williams, Kimberly civil defense director. Schiltz obtained the hospital from the federal civil defense authorities after about a year of negotiations. It was supplied the county as part of the federal civil defense program. The equipment includes a portable x-ray unit and generator. (Post-Crescent Photo)

Grand Chute Receives Checks

Town's Share of
Utility Tax Totals
\$10,588 From 4 Firms

The Grand Chute town board Tuesday received state utility tax checks totaling \$10,588.74. The checks represent Grand Chute's share of taxes paid by utility companies with property in the town.

Checks were as follows: Wisconsin Michigan Power company, \$8,551; Michigan-Wisconsin Pipeline company, \$1,265; Wisconsin Public Service corporation, \$764; and Kaukauna Light and Power company, \$874.

The board also received a \$7,897 check as its share of state highway funds. The money comes from motor vehicle license fees paid by Grand Chute residents.

In other business, the board received a warranty deed from William Behm for land near County Trunk BB and Highway 41 and a quit claim deed from Edwin Van Dyke, route 2, Appleton for land north of Highway 41 near Butte des Morts

Golf course. Both parcels will be used for streets.

The board granted a permit to Le Roy A. Thede, Third avenue, to move a 20 X 20 garage from 1102 N. Lawe street to his Third avenue residence.

Authorization was granted Robert Helms, 524 W. Northland avenue, and others to build a skating rink on town land just north of the town hall on Highway 41. Arthur Lecker, chairman, said the town would grant aid for the project.

The Grand Chute Volunteer Fire department was authorized to install a fire phone at Helms' home.

High Court Affirms Fees Of Legal Firm

County Judge's Ruling
Upheld; \$3,391 Claim
Okayed for Attorneys

The state supreme court Tuesday upheld a ruling by County Judge Stanley A. Staidl that an estate must pay for legal services performed for a deceased contractor during and after his lifetime.

The fees claimed were for work by the firm of Benton, Bossert, Fulton, Menn and Nehls for the late John F. Bloomer.

Mrs. Joan Krueger New Teacher at Pleasant View School

Leeman—Mrs. Joan Krueger of New London is the teacher at Pleasant View school. Mrs. Marie Baue served as substitute teacher after Mrs. Celia Greely resigned. Mrs. Krueger assumed her duties as the school resumed classes after the holiday recess.

who died Sept. 24, 1955, leaving an estate of \$489,160.

The law firm claimed legal fees totaling \$3,491 and Judge Staidl deducted \$100 asked for working on the claim itself.

The firm cut its original claim of \$4,745 by dropping fees for legal services performed for Bloomer from January through September, 1949. The entire fee claimed was from October, 1949, through November, 1955.

Judge's Ruling—Judge Staidl ruled that the firm could claim payment for legal services performed six years ago, since legal work of ten is a continuing process which may take years to complete. He also ruled that the work was done for Bloomer personally and should be paid by the estate.

The bulk of Bloomer's estate was left to two sons and a daughter. Attorney Joseph Witmer represented the estate.

Drug Used to Cut TB Among Mentally Ill

26 of 35 County Hospitals Cooperating in State Program

Post-Crescent Madison Bureau

Madison — Patients in 26 of the 35 county mental hospitals of Wisconsin are being treated with a new and inexpensive drug hailed by specialists as a promising means of reducing the incidence of tuberculosis.

The standard anti-tuberculosis procedures in the hospitals are being continued, while the new drug is being administered according to the methods developed by the United States.

(The drug is not being used in public health service after ex-Outagamie county. The director, reports of the county institution say they do not feel the drug

hygiene which is directing the experimental work.

Dr. Kathryn Smick, director of tuberculosis control for the division, explains that the county hospitals are collaborating in the program voluntarily. The dosages will be continued for a year, which will be followed by intensive observation of tuberculosis incidence to determine the results.

Not Used in Appleton—The drug is not being used in public health service after ex-Outagamie county. The director, reports of the county institution say they do not feel the drug

has had sufficient testing to determine its safety and effectiveness.)

The testing work is carried on nationwide, explained Dr. Schmick, but Wisconsin is the first state in which mental institutions are cooperating. Previous tests have shown that the drug is dramatically effective in preventing the complications of childhood tuberculosis and that it has had no adverse effects.

"Since the institutionalized mentally ill constitute a tuberculosis reservoir of significant proportions throughout the United States, the results of our observations in Wisconsin can be expected to have widespread importance," said the official.

Tasteless Drugs

The drug is called isoniazid, and is available in small, tasteless tablets resembling the aspirin. Dr. Schmick said it was developed and made available in 1952. During the last five years it "has been the most important single drug available

for treating tuberculosis," she said.

She emphasized that the local institutions will continue all of the usual disease control measures, including routine and periodic chest X-rays of all patients and the prompt isolation and treatment of all new active tuberculosis cases as before."

Hospital Danger

There are about 9,000 patients in all of the county hospitals, most of them chronically ill mentally and frequently also in firm or defective. Nearly half of them have been hospitalized for 10 years or more and nearly a quarter for 20 years or longer.

Forty per cent are 65 or older. The incidence of tuberculosis in the hospitals has been more than 10 times as great as in the general population.

"While the application of proven methods of control has served to reduce the incidence of tuberculosis to the present level (of 40 per 100,000) in the general population, the problems encountered in institution popula-

Works Board Hits Impasse Over Land Buy

City Engineers Ordered to Survey Marston Property

The board of public works has reached an impasse in negotiations to buy the Marston property, 121 E. Kimball street, for future vocational school expansion.

Roy Marston, representing himself and his sister, Louise, heirs of the Mrs. Lettie Marston estate, told the board he believes his price of \$31,000 for the 14,000 plus square feet of table land on the hillside tract is fair.

Board members countered with an offer of \$25,000, saying they don't believe there is that much table land there.

Marston made much of the fact that his price, based on the 14,000 plus square feet, was lower per foot than most of the city's recent parking lot acquisitions across the street and nearby. He said the house on the lot is a fine home and no consideration for it was given in the price.

He also stressed that the land is a natural buy for the vocational school.

Board members told him the vocational school board does not recommend paying more than \$25,000 and there are no plans at present for use of the tract other than for a parking lot for the school.

Not result was an order to the engineering department to survey the tract for actual table land and what work, in the way of a retaining wall, will be needed.

The tract, site of the home of former Mayor Joseph Marston (1877 and 1882), is just east of the vocational school on the hill that overlooks E. Water street.

Swim Pool Site Talk Set Today

Park Board Expected To Offer Land From Reid Golf Course

Talk about a site for a south side outdoor swimming pool—dormant since early November—will be revived today.

Park board members, meeting with the board of public works Tuesday, said they will make some decision on offering a pool site to the city at their meeting at 3:30 this afternoon.

They are expected to offer a parcel at the southeast corner of Reid Municipal golf course. A letter from Auler, Drego, Wiley and Wertsch, Inc., Oshkosh, expressing interest in designing the pool, was placed on file.

Others On File
Already on file are similar letters from Chester Products company, Hamilton, Ohio; Water Conditioning Products company, St. Charles, Ill.; George Narovec, Appleton designer; Raymond N. Le Vee, Appleton designer; Wesley Bantz, Lansing, Mich.; and Associated Designers and Engineers, a new Appleton firm.

The city council voted unanimously June 5 for a referendum on pool construction, but cancelled it in July and in August instructed the mayor to appoint a committee to study what kind of a pool and where it should be placed.

Aldermen Kenneth Priebe, Thomas K. Schneider, William F. Ertl and Alvin Tews subsequently were named, toured plants in and out of the state and surveyed available sites. They informally seem agreed on the golf course site.

October Approval
The council in October gave the works board power to hire an architect to draft plans. Aldermen Homer Melstrom, a works board member, and Allan Sankowsky voted against giving the authority.

Mayor Robert L. Roemer said it was expected the works board would have the site before an architect was hired.

Byrnes Asks Congress To Recognize Museum

Washington — Rep. Byrnes (R-Wis.) said Tuesday he would introduce a resolution in the house asking that the congress "recognize the National Railroad museum as a memorial to the individuals who built and ran our early American railroads."

Byrnes said he would seek senate concurrence in the resolution recognizing the Green Bay museum as "a fitting and valuable institution for the collection and preservation of the of welfare and Judge Oscar J. Schmiede adjourned the case steam locomotion."

Trucker Pays \$10 For Tenth Traffic Offense in 2 Years

A New London trucker Tuesday added another conviction to his record of nine previous ones in the last two years.

Grant D. Scheller, 30, route 2, New London, failed to appear on a charge of not maintaining adequate taillights on his truck. Judge Oscar J. Schmiede fined him \$10.

Scheller's previous offenses include three for speeding, four for no registration, two for no authority to haul, and once each for safety responsibility, muffler violation, no contract license, ignoring a traffic signal, over truck width limit and a load over the maximum weight allowed.

College Heads Discuss Money

Educators' Group Begins Convention At Miami Beach

Miami Beach, Fla. — The Association of American Colleges got down to the brass tacks problem of higher education today with the emphasis on money — particularly on where it's coming from.

The day's program called for panel discussions dealing with everything from the responsibilities created by the dawn of the nuclear age to the advantage of advertising in fund raising.

(President and Mrs. Douglas M. Knight and Dean Marshall B. Hulbert of Lawrence college are attending the conference and participating in study sessions for presidents, presidents' wives and college deans. Dr. Knights also is attending meetings of the Commission on Liberal Education, of which he is a member.)

Main interest at the 44th annual convention centered on the report to be brought in by a special task force of educators who have been wrestling with the question of federal aid to education.

Against Program
Some educators, particularly in the group representing private schools, are against the massive program of federal aid because they fear it may lead to federal control of schools. Others, from both private and public schools, feel federal aid is the only way that colleges and universities today can meet the twin challenges of a growing population and the Soviet threat of world domination.

J. Ollie Edmunds, president of the AAC and of Stetson university, is one who wants only limited federal aid — and no federal control. He is proposing a program designed to raise a billion dollars a year from corporations and philanthropic foundations.

Critics of his plan point out corporations and foundations contributed just over 120 million dollars during the past academic year. It would be impossible, they say, to increase this figure tenfold.

President John A. Hannah of Michigan State college opened the convention last night with a keynote speech in which he warned that this country must hold firm to its traditional beliefs in diversified education.

22-Year-Old Finds Obscene Language Is An Expensive Habit

Roland K. Mosher, 22, 1013 W. Brewster street learned Tuesday that using obscene language to a policeman can be expensive.

Mosher was at the scene of an accident on Highway 41 near Little Chute Saturday and used obscene language to County Policeman Calvin Spice. When Spice told him to ease off on his language, Mosher added a few more words. Spice charged him with disorderly conduct.

Mosher paid a \$15 fine after Municipal Judge Oscar J. Schmiede heard the story.

Two Men Fined for Hunting After Hours

Two men were fined in municipal court Tuesday for hunting rabbits after hours the day before Christmas in the town of Osborn. They told Judge Oscar J. Schmiede they weren't aware of the time.

Allan Holm, 18, 913 W. Spencer street, was fined \$10 for that offense and \$10 for hunting without a small game license. Ronald Beyer, 18, 326 E. Summer street, also was fined \$10 for hunting after hours.

Non-Support Charge

Edward Dorn, route 1, Kaukauna, Tuesday was charged with failing to support his wife, Lillian, and three children, aged 2, 4 and 5. Dorn's attorney asked the court to give Dorn a Ray museum as "a fitting and valuable institution for the collection and preservation of the of welfare and Judge Oscar J. Schmiede adjourned the case steam locomotion."

Progress in Heart Research was discussed when members of the Green Bay Area Heart committee met at Van Camp's Tuesday night. Among those attending, from left, were Dr. George Nichols, Appleton; Miss Lucille Rabe, New London, field worker for the Wisconsin Heart association; Dr. John Huston, Milwaukee, principal speaker; Mrs. Marion Freemore, Outagamie county nurse; and Dr. Janet Whitmore, Appleton. (Post-Crescent Photo)

Five Tracts for Golf Course, Park Offered

Works Board Takes No Action, Awaits Decision by Jury

Five large tracts of land which the city could buy for a future park and/or golf course at the city's northwest corner were offered to the board of public works Tuesday.

Park board members identified the tracts as:

1. The Heimmermann farm, comprising about 60 acres about 300 feet north of Third avenue between N. Oneida and N. Richmond street extensions in the town of Grand Chute. The asking price is \$2,500 an acre.

2. The Letts farm, composed

Ben-Gurion, Same Parties Back in Office in Israel

Jerusalem, Israeli Sector — One week after his Israeli government resigned because of a breach of cabinet secrecy, Premier David Ben-Gurion and the same five political parties were back in office today.

The new government won a confidence vote from parliament last night 76-33 after Ben-Gurion expressed certainty that secrecy would not be broken again. The premier said the achduth avodah (labor unity) party leaked plans to send a special mission to West Germany to seek arms.

All five parties hold the same number of ministerial posts as in the old cabinet. They are Ben-Gurion's mapai (socialist labor) nine, two each for achduth avodah, misrachi (religious orthodox) and Mapam (united workers) and one progressive.

Ben-Gurion continued as defense minister as well as premier and Mrs. Golda Meir remained as foreign minister.

Arnold Seidler Given Fourth Permit of Year For Building New Home

Arnold Seidler has received the fourth permit of the new year for construction of a new home in Appleton. Building Inspector Walter Bogan's records show.

Seidler will build a 5-room house, with bath and separate garage, at 1124 E. Byrd street. The project will cost about \$17,500.

Tavern Keeper Fined \$25 for Late Hours

Chilton — Hillary Mueller, Sherwood bowling alley and tavern proprietor, was fined \$25 and costs by Justice Herman F. Jodar after pleading guilty of keeping the tavern open after hours.

He was arrested in May, 1957, by agents of the state beverage tax department. He pleaded innocent when he appeared in justice court at that time.

Sheriff, Undersheriff Attend Annual Meeting

Sheriff Donald Hamerly and Undersheriff Robert Hamerly are in Milwaukee attending the annual meeting of the Wisconsin Sheriffs and Deputy Sheriffs association. The open session was Tuesday and sessions will continue through Thursday.

American Motors Claims Record Sale of Ramblers

Detroit — American Motors corporation said Tuesday that 1957 was a record year for Rambler sales, with 98,367 being sold, compared with 73,807 in 1956, the previous record year.

The 1957 total was a gain of 38.2 per cent over Rambler sales in 1956.

Production tabulations show American Motors manufacturing 109,178 Ramblers in 1957.

The firm also reported a record 12,226 sales of its little, imported Metropolitan. This compares with 7,323 Metropolitans sold in 1956.

Near Accord On Dairy Plan

Laird Says Four Farm Groups Closer Together Than Before

BY FRANCES McKUSICK
Post-Crescent Washington Bureau

Washington — Four farm organizations are in closer agreement on dairy legislation than they have been at any period in the past, Rep. Melvin R. Laird said today. He said that the National Grange, the National Milk Producers federation, the Farm Bureau federation and the Farmers union have been conferring for two days here on a tentative dairy bill sponsored by Laird which includes the self help plan.

"We are at last getting the ball rolling to get the government out of the dairy business," Laird said.

Representatives of the National Grange and the National Milk Producers federation are in almost complete accord on the dairy program, according to Laird.

He believes that by Friday, the farm and dairy organizations will have completed their negotiations and will have drafted legislation for an entirely new dairy program.

Democrats to Elect Officers

Nelson III, Won't Address Meeting in Appleton Thursday

Outagamie county Democrats will elect 1958 officers Thursday night, according to Mrs. Shirley Cherkasky, party secretary. The meeting will be at the Hotel Appleton at 8 o'clock.

State Sen. Gaylord Nelson, candidate for the Democratic gubernatorial nomination, was to have spoken but is ill with pneumonia. Mrs. Cherkasky said today she hopes to schedule Nelson for a talk in February or March.

County Democratic party officers to be filled are chairman, first and second vice chairmen, recording secretary, assistant recording secretary, corresponding secretary, treasurer, publicity chairman, membership chairman, membership secretary, women's affairs secretary and finance secretary.

A 5-man nominating committee will propose candidates. On it are Dr. M. S. Kagen, chairman; Fred Reichel, John Denigan, W. W. Smith and Michael Hart.

Albert Kobussen, county chairman since 1954, has announced he will not seek reelection.

Disney Volume On Atom Added To Public Library

A Walt Disney book on the history of the atom, its structure and uses has been added this week to the children's room of the Appleton Public Library. "Our Friend, the Atom" is among new books available for circulation now.

Other additions are "Terrible Terrifying Toby" by Hendrickson, "Breakneck Hill" by Johnson, "Something New at the Zoo" by Meeks, "I Is One" by Tudor, "A Tree for Phyllis and Me" by Boal, "Punkin Summer" by Burress, "George and the Long Rifle" by Drury, "Fence Across the Trail" by Falk, "A Lantern in the Window" by Fisher.

"Molly's Hannibal" by Willis, "Saint Thomas More of London" by Ince, "Peddler's Pack" by Justus, "The Real Book About Prehistoric Life" by Shuttlesworth, "Mary MacLeod Bethune" by Sterne, "The Big Step" by Colman, "Hardnose" by Douglas and "Mister Jim" by Montgomery.

Lesson in English
BY W. L. GORDON

WORDS OFTEN MISUSED: An "amateur" is one who cultivates anything as a pastime; quite the opposite of a "professional." A "novice" is a beginner. A "tyro" is also a novice, but one who is exceedingly awkward and imperfect through lack of training.

OFTEN MISPRONOUNCED: Stratum. Pronounce as stratum, and not as stratt-um.

OFTEN MISPELLED: Revel (to beveal) (to divulge). Revel (to be festive).

SYNONYMS: Incongruous, absurd, contrary, discrepant, inappropriate, incompatible, inginner. A "tyro" is also a novice, but one who is exceedingly awkward and imperfect through lack of training.

WORD STUDY: "Use a word three times and it is yours." "Let us increase our vocabulary by mastering one word each day."

TODAY'S WORD: peculate: to steal or misappropriate money, especially public money entrusted to one's care; to embezzle. (Pronounce peck-yu-lait, accent first syllable). "Men in positions of public trust must resist many opportunities to peculate."

Madison — Pedestrian deaths in Wisconsin in 1957 were the lowest in the 22 years for which records have been kept. The state motor vehicle department reported Tuesday.

The toll was placed at 124 Wisconsin's total highway deaths last year came to 915. "The pedestrian toll has steadily dropped from 21 per cent of the total traffic deaths in the state in 1937 to 13.5 per cent in 1957," Commissioner Melvin O. Larson said. "From 1930 to 1943, the pedestrian toll each year was responsible for more than 30 per cent of all street and highway fatalities in Wisconsin."

Department records show pedestrians accounted for 49.2 per cent of all traffic deaths in the state in 1938 and the highest number of walker deaths was in 1937 when 270 were recorded.

Larson attributed the decline to traffic engineer recognition for pedestrian controls, better street lighting for nighttime protection, wider road shoulders and more attention to enforcement of traffic laws.

Washington — A draft of President Eisenhower's proposed reply to Soviet Premier Bulganin's December letter has been sent to Paris for coordination with Atlantic pact governments.

The state department said the Eisenhower-approved version was cabled yesterday to Ambassador Randolph Burgess, American representative at the North Atlantic Treaty Organization council.

Press Officer Joseph Reap said the American answer, which is reported to brush aside the idea of any immediate east-west non-aggression pact, will be discussed tomorrow at a meeting of the permanent representatives of the 15 allied nations.

POST CRESCENT News of the TWIN CITIES Menasha - Neenah

43 Petitions for Attorney Election Turned in to Clerk 861 Citizens Request Menasha Position be Decided by Voters

Menasha — Forty-three petitions asking the Menasha council to make the city attorney post an effective one, were presented to City Clerk Ira Clough Tuesday afternoon. The attorney now is elected annually by council members in April.

John Pawlowski, Jr., 425 Eighth street, presented the petitions which were signed by 861 Menasha citizens. Fifteen per cent of the city's eligible voters, or 831 signers were needed to force the council to take action on the petitions.

Signing as circulators were Frank Karasek, 335 Broad street; N. A. Brunner, 735 Long street; Al Kass, 613 State street; Edward Eisch, 645 Milwaukee street; Raymond Feit, 318 Lisbon avenue; Bernard LeRoy, 713 Jefferson street; Kenneth Reinke, 127 First street; Gerald Mattern, 621 Eighth street.

More Circulators

Dale Lenz, 4131 Third street; Allan Loehndorf, 307 Elm street; John Novokofski, 794 DePere street; James Omachinski, 821 Fifth street; Mrs. Helen Hess, 936 Sixth street; Harold Heiberg, 749 Carver Lane; Joseph Koerner, 824 Seventh street; Mrs. Milton Gaertner, 818 Appleton road; William Herzig, 342 Park street; Harold Pelton, 808 Eighth street; Carl Steffin, 838 Sixth street; Lucian Gajewski, 732 Eighth street; Harry Kind, 523 Broad street; Robert Bachhuber, 535 Sixth street, Edward Corry, 429 Broad street, and Pawlowski.

After Clough checks the signatures, they will be turned over to the council. The aldermen can either adopt an ordinance calling for the city attorney to be elected by the voters or can submit the proposal to a referendum.

Circulators have said they want the change because the attorney's salary, which is now \$5,400 a year, is high enough so that the voters should decide who will hold the job.

The Three Wise Men were added to the creche at St. Thomas Episcopal church on Epiphany, a custom followed by many churches throughout the world. Gathered around the crib, from left, are Jerry Bump, Peter Traas, Holly Spencer and Lissa Spencer.

New Drawings Ordered Tullar Board For Fire Sub-Station Files Suit for Condemnation

Neenah — The council Tuesday night ordered new drawings for the proposed southwest side fire sub-station. In the hope that the estimated cost of about \$67,649 can be reduced.

The sub-station, designed for two trucks and 12 men, would be built at Harrison and Cecil streets.

Jeff Nichols of the McMahon Engineering company, Menasha, presented a basic plan of colonial design with three modifications at the informal council session. Two of the modifications would reduce the cost by \$2,000 and \$4,000 respectively. They involve only the design of the roof on the two wings of the building.

Several aldermen commented on the design, as presented, "looked as though it would be expensive to build."

More Modern Style

Two drawings are to be presented next week, both designed around the floor plan of the original, which shows the garage flanked by two wings. They are to be more modernistic. The drawings presented Tuesday were too dated, said several aldermen, to be attractive in the new residential area where the station may be built.

The cost estimate was supplied by the McMahon firm after conferring with contractors. Nichols said the estimate was in line with current prices. The building would contain 4,826 square feet and cost slightly more than \$13 per square foot if the least expensive roof design were acceptable.

Nichols said building of the same size but of modernistic design without the colonial "frills" probably would shave not more than 5 per cent from the original estimate.

It would cost about another \$30,000 to equip the building, according to Fire Chief John Zick. New equipment would include one pump truck, office kitchen, recreation room and bedroom furnishings, radio equipment.

The public protection committee authorized preparation of specifications for a new school district.

The petition pointed out that the petition was filed this week in circuit court by Harlan W. Hirsch, director of the rural school district No. 2 which is seeking the land for school purposes.

A petition requesting condemnation was filed this week in circuit court by Harlan W. Hirsch, director of the rural school district No. 2 which is seeking the land for school purposes.

Four Aldermen Traffic Control Plan Object to City Adopted in Menasha Auditor Change AAA Recommendations Opposed by Aldermen Mielke, Coughlin, Pawlowski

Menasha — An American Automobile association recommended traffic control system in Menasha was approved by the council Tuesday and will go into effect immediately. Three aldermen voted against the plan.

Details of the AAA recommendations, which were given to Mayor R. D. DuCharme Oct. 2, were not immediately available as the mayor, who has the only copy, is in Madison today at an insect control meeting.

Ald. Robert Mielke, who voted against the plan, said his main objection was the removal of a stop sign at Second and Tayco street. He pointed out there was a playground at the corner and children crossed there coming to and from school.

Ald. Walter Pawlowski, another dissenter, said his opposition to the plan was due to the removal of a stop sign at London and Seventh streets where school children cross.

Ald. Thomas Coughlin also voted against the plan.

No Fatalities

Mielke told the council the plan would open up a speedway on Tayco street from Main to Ninth streets and he is against this. He pointed out the plan would open up a speedway on Tayco street from Main to Ninth streets and he is against this. He pointed out the plan would open up a speedway on Tayco street from Main to Ninth streets and he is against this.

Stilp added that "we all know Harry Kind, a lifelong resident of Menasha, is an employee of the state audit department and has been doing the city's auditing. Kind is a qualified and experienced certified public accountant and has distinguished himself as a public servant and civic leader in our community. In the interest of good city government I ask you to retain Kind as our auditor."

Mayor R. G. DuCharme said that the city only hires the firm to do its work and can not ask for any one person to do the job. "We can't specify any certain individual to come here no matter who we hire as an auditing firm," he pointed out.

The mayor stressed that the state auditing department is crowded with work and in many cases can't take care of its jobs as it should.

Mueller Rules Machine Firm May Buy Stock

Hewitt Company To Pay \$58,240 to Estate of Founder

Oshkosh — County Judge Herbert J. Mueller Tuesday authorized executors of the estate of the late John W. Hewitt, Sr., Neenah industrialist who died Aug. 1, 1952, to accept the \$58,240 offer of the J. W. Hewitt Machine company, Inc., of Neenah, to purchase the stock of that firm being held in trust as part of the estate.

Hewitt had left 1,120 shares as part of a trust set up for his widow and had not specifically disposed of that stock in his will.

The executors have asked permission to convert this stock into cash and to place this in the trust assets, provided the commissioner of internal revenue rules the interests of the beneficiaries are protected from adverse tax consequences.

A stipulation has been reached by the executors and the state department of taxation placing the value of the stock at \$52 a share although it was inventoried at \$40 a share at the time of the founder's death.

Final assignment to the heirs has not been made although there has been a partial assignment of parts of the estate.

Extend Call For New Pastor

Grace Lutheran Congregation Asks Richwood Minister

Neenah — The congregation of Grace Evangelical Lutheran church Tuesday night voted to call the Rev. R. W. Brassow of Richwood to succeed the Rev. W. F. Wichmann as pastor.

Pastor Wichmann has accepted the call of the Christ Evangelical Lutheran church of Grand Island, Neb., and will move from here during the last week in January.

The Rev. Mr. Brassow is now serving Immanuel Lutheran church of Hubbard and St. Mark's Lutheran church of Richwood which are in the area between Watertown and Waterloo. Each has about 100 communicant members and he also teaches the parochial school of the Richwood church.

First Parishes

He graduated from the Lutheran Theological seminary at Thienerville in 1955 and the Huntington and Richwood churches are his first parishes. The 30-year-old minister attended Concordia seminary at Springfield Ill. for four years and served as a vicar for one year at Trinity Lutheran church of Peoria Ill.

Both he and Mrs. Brassow are natives of Maine, and they have four children: Barbara 4, David 2, and twins Donna and Doris, 1 year old. He has not indicated acceptance of the call.

Training for Safety Will be Outlined to Twin City Group

Menasha — "Training for Safety" will be discussed by George M. Williams, safety engineer for Employers Mutual Insurance companies, at the fifth meeting of the Twin City Industrial Safety council Wednesday night, Jan. 15, at Germania hall.

Williams was employed in the engineering department and later as safety engineer for Nekeosa - Edwards Paper company at Port Edwards from 1941 to 1949 and since 1949 has been employed as a safety engineer for Employers Mutuals.

He is a past president of the Green Bay Association of Commerce industrial safety committee and currently is on the board of directors of that committee. He also is a member of the executive committee of the Green Bay - Brown County Safety council.

Williams is a member of the American Society of Safety Engineers and currently is on the steering committee of the local home safety division of the Wisconsin Council of Safety Education, emphasizing the importance of maintaining a proper safety climate.

George M. Williams

Twin City Deaths

Amy Michele Butler

Menasha — Amy Michele Butler, infant daughter of Mr. and Mrs. Orlie Butler, route 2, died at 8 o'clock this morning at Appleton. She was born Dec. 30, 1957 at Appleton and had been ill since birth. Burial took place in St. Margaret cemetery.

Survivors include the parents and one sister, Meldie Ann, at home.

Fined \$5, Costs

Neenah — Albert Rhyner, 65, route 1, Neenah, was fined \$5 and costs this morning for drunkenness by Police Justice Edmund Arpin. He was arrested at 10:15 Tuesday night when police observed him trying to cross N. Commercial street at Kewanna street. He was kept overnight in the Menasha jail.

Neenah — The congregation of Grace Evangelical Lutheran church Tuesday night voted to call the Rev. R. W. Brassow of Richwood to succeed the Rev. W. F. Wichmann as pastor.

Pastor Wichmann has accepted the call of the Christ Evangelical Lutheran church of Grand Island, Neb., and will move from here during the last week in January.

Success, Topic Of Speaker for Tuesday Club

Neenah — "A successful person is one who has triumphed over life and found it good," said Miss Mercedes Hurst, guest speaker for the Woman's Tuesday club Tuesday afternoon at the Brigade building.

The Chicago woman, who is a representative of the public relations division of International Harvester company, reported on steps to success from a survey she made with women successful in business.

She said there are no geographical restrictions, choice of religion or occupation doesn't make a difference and the reason why a certain occupation was selected is not the important.

Miss Hurst pointed out all the people she interviewed had a sense of security and were self-reliant. She said all successful people dream for with Mrs. Alex Andrews as "dreams are what make little things into big things."

Vincent Rohlf, Kaukauna, will speak on "An American Business Man Visits Russia" at next week's meeting.

Name Chairmen for Life Membership Tea

Menasha — The United Lutheran Church women of St. Timothy Lutheran church Tuesday evening completed plans for their life membership tea tentatively scheduled for Feb. 4. A missionary guest speaker will be on the program.

Those who will receive life membership pins are Mrs. Arnold Johnson, Mrs. Alex Volkman, Mrs. Donald Krueger, Mrs. Lynus Krueger, Mrs. Lawrence Kaphingst, Mrs. Kenneth Nelson and Mrs. Orvis Erdmann.

Chairman of the annual event will be Mrs. Clifford Fahrbaach who will be assisted by Mrs. Kaphingst. Mrs. Robert Eggert will be program chairman and in charge of devotions will be Mrs. Roger Wright.

Mrs. Franklin Heglund is music chairman. Mrs. Walter Brendenick is in charge of flower arrangements and the sandwich chairman is Mrs. Edward Christoph who will be assisted by Mrs. George Becker.

Also serving on the refreshment committee will be Mrs. Robert Ross, Mrs. John Pawelkiewicz, Mrs. Hugh Geibel, Mrs. Charles Williams, Mrs. Dewey VanBuskirk, Mrs. Irvin Gunther, Mrs. Alfred Becker and Mrs. Orville Pekel.

Mrs. George Gajewski will be chairman of the hostess and

Supreme Court Upholds Jury In Slander Case

Oshkosh — The state supreme court Tuesday upheld the verdict of a circuit court jury and the decisions of Circuit Judge H. F. Arps in granting Elmer Gladfelter, Wautoma, \$10,000 in his slander suit against Walter G. Doemel.

Doemel, who had employed Gladfelter as a bookkeeper for his Oshkosh Storage company, had sworn out a complaint and had Gladfelter arrested on a charge of embezzlement of \$75.

During the preliminary examination, the district attorney moved for dismissal on the grounds of insufficient evidence.

Gladfelter then brought suit for damages against Doemel and was awarded \$1,000 in damages plus \$6,000 in punitive damages against Doemel.

Doemel then appealed to the state supreme court which upheld the circuit judge as to the admission of evidence in the suit.

The jury ruled that Doemel had charged Gladfelter with embezzlement without probable cause, that Doemel was actuated by malice in swearing out a complaint charging embezzlement and that he did not fully and fairly state all material facts to his knowledge and all information possessed by him to the district attorney.

A defense motion to change the jury's verdict or reduce the amount of damages was denied by Judge Arps who declared he was in full accord with the jury's verdict.

Men's Aid Group Plans Dinner

Neenah — Plans for their Jan. 19 anniversary party were made by the Men's Aid Association of Trinity Lutheran church, Neenah, at their Monday evening meeting.

On the committee for the dinner and program which will be held at the church hall are Ervin Klesow, chairman, Henry Bellin, Raymond Koert, Emil Kuehl and Fred Krueger.

A potluck supper at 6:30 Thursday evening will be held by the Laymen's Progressive association of Immanuel's Evangelical and Reformed church.

Teacher Pay Increases Approved by Aldermen

Menasha — The Menasha council Tuesday night approved the school board's granting of 2 1/2 per cent cost of living raises to Menasha teachers for the last four months of the year by a 7 to 3 vote.

Alderman Robert Mielke, Thomas Coughlin and Walter Pawlowski voted against approval.

The school board originally asked for the 2 1/2 per cent raises for the entire year but the raises were in the \$29,120 total which the council cut out of the 1958 budget.

The board Dec. 26 revised its budget by eliminating the painting of Butte des Morts school, installation of fluorescent lights in some of the buildings and other changes, the board provided funds for a 2 1/2 per cent wage increase, effective next September but carrying only up to Jan. 1, 1959.

With the increases, starting pay for a teacher with four years of college training will be \$4,000. A teacher with 11 years experience in Menasha schools will have an annual salary of \$5,836. The head of a family will be given an additional \$400 a year.

Ald. Coughlin said the added raises granted by the board and along with a raise given to teachers under the present salary schedule will give the instructors in most cases, a 5 per cent pay boost in September.

Robbing Peter

Ald. Mielke, after being informed the school board would have to cut something else out of its budget to pay the raises, said the board actually was "robbing Peter to pay Paul."

When the minutes of the board's Dec. 26 meeting were read, Ald. Mielke said he couldn't understand how the board could grant the raises when the council cut them out of the school budget.

City Atty. W. F. Giese told Mielke that the council only controls the total amount of money allocated to the board and that the board by a two-thirds vote can re-allocate budgeted money.

Ald. Lee Rather maintained there was nothing the council could do about the raises and Mayor R. G. DuCharme pointed out that the money originally earmarked for the painting of Butte des Morts school will be used for the raises.

Group Meetings Set For Rural Teachers

Oshkosh — Group teacher meetings to evaluate the fall term and plan social studies and science work for the remainder of the year have been called by Robert Fowler, county superintendent of schools, for the rural teachers.

Meeting at 4 o'clock Thursday afternoon at Gillingham school will be teachers from the upper grades at Spring Road, Tullar, Lakeview, Gillingham, Howlett, Omro Junction and Plain View schools.

Four primary grade teachers from Spring Road school and five from Lakeview school will meet at 4 o'clock Monday afternoon at the Lakeview school while two Tullar school primary teachers and one from Gillingham school will meet at 4 o'clock Wednesday afternoon.

A meeting for 1-room school teachers at Lonely Oak, Valley Brook, Beaver Dam, Oakdale and Wolf River schools will be held at 4 o'clock Monday afternoon, Jan. 20, at Lonely Oak school in the town of Clayton.

Card Party Held by Allenville Grange

Allenville — Seven tables of cards were in play at the Allenville Grange public card party Monday night. Prize winners were Curtis Combs, Chester Smith, Mrs. Earle Armstrong, Mrs. Herbert Harrison and Mrs. Smith. Mr. and Mrs. Arthur Reinders were in charge of the party. Refreshments were served.

\$170,000 Suit Settled for \$16,750 Award

Menasha Couple Named Defendants In Accident Case

Post-Crescent Oshkosh Bureau

Oshkosh — A suit seeking \$170,000 for members of an Eau Claire family was settled out of court this week for \$16,750. The suit was scheduled before Circuit Judge H. F. Arps.

The suit was that of the Rodrick Gifford family of Eau Claire after an accident involving their car and one driven by Mrs. Harvey Grundman, town of Menasha, on Aug. 28, 1956.

Killed in the accident was Maria Gifford, daughter of Rodrick Gifford. Others in the family were injured in the accident which resulted when Mrs. Grundman made a left turn from Highway 41 onto Highway 150 in front of the Gifford car which was headed south on Highway 41.

Damages Asked

The damages on behalf of Maria were settled for \$3,500 while \$15,000 was asked. Rodrick Gifford settled his \$10,000 request for \$1,000; Michael Gifford, a son settled his \$25,000 request for \$3,000. Linda Gifford accepted \$1,500 while asking \$20,000 and Mrs. Gifford, who was asking \$100,000 settled for \$7,250.

The damages are to be paid by Farmers Mutual Automobile Insurance company which was a defendant along with the Grundmans. Farmers Mutual also is to pay \$1,200 to State Farm Mutual Automobile Insurance company, insurers of the Gifford car. State Farm has been named a defendant in

Prepare Material For March of Dimes

Winneconne — March of Dimes material for distribution in the village was prepared at a meeting at the home of Mrs. R. A. Diestler, chairman, Monday afternoon. Assisting Mrs. Diestler were Mrs. George Schneider, Mrs. Paul Falk, Mrs. Clarence Wentzel and Mrs. J. J. Grimes.

Mr. and Mrs. George F. Mader, accompanied by Mrs. Lydia Henry attended the funeral of their sister-in-law, Mrs. Ed Mader, who was the former Hattie Smith of Winneconne, at Eau Claire Tuesday.

a cross-complaint filed by Grundman which was dismissed as part of the settlement

Professor Explains Religions to Group

Neenah — Prof. E. G. Waring of Lawrence college spoke on the major non-Christian religions of the world when the Young Single Adult club of the First Presbyterian church met Tuesday evening.

Since one cannot study Buddhism or Hinduism without a knowledge of the languages in which their documents are recorded, there are only six or seven men in the world who are

acknowledged experts on the subject of non-Christian religions, he pointed out.

The subject was merely a hobby with the Lawrence professor before students requested that a course in religions be made available.

"Hinduism, the name for the total culture of India, defies the forces of nature, the sun, rain, wind, mountains, snow and rivers," Prof. Waring added.

One of the great Hindu philosophers said that evil in life results from an ignorance of what we really are, the speaker explained.

Buddhism, the middle way between indulgence and the austerity of the Hindu wise man, is the method which roots out desire as a strategy for avoiding pain. Prof. Waring added that the great centers of the cult are China and Japan and not India, the religion's birthplace.

"China has not produced a great religion," he said. "The religion of Confucius, based on respect for ancestors, cancels out extremes and advocates decorum and dignity." When communism moved into China, there was little resistance and today Confucius is a dead religion," he added.

Human Liberty

The great religion of the Near East, Judaism, has its basis in history and tradition. An exponent of human liberty, Judaism celebrates the freeing of the people from Egypt on the Passover. "It has been only during the last 100 years that the Jewish people have been emancipated in Europe," explained Prof. Waring.

"The Moslem religion," the professor pointed out, "can be described in the name of the founder, Islam, which means 'submit.'"

Because of the centuries-old traditions of these religions, the speaker concluded, Western people cannot simply intervene and solve the problems of the Far East without a knowledge of their religious beliefs.

Well With Cauliflower**

BY EDITH M. BARBER

Cauliflower is one vegetable that has a descriptive title. The first syllable is derived from the German name for cabbage, and cauliflower is certainly the flower of its family.

When fresh, it has a lovely creamy color and we should look for this when we make our purchases. The heads should not be dark, spotted or bruised. Before cooking, it is a good idea to immerse the head in salted water for a few moments so that if any small insects have made it their home, they will be evicted.

While some cooks like to cover the heads with boiling salted water before cooking, others use only about an inch of water and cook the head in a covered pan. Usually, it will be tender in about 20 minutes. If broken into flowerets, the time can be reduced to about eight minutes.

Hollandaise or a sour cream sauce is often favored with this vegetable, but you may enjoy serving it with a Latin American or Oriental sauce, as a change. With the Latin-American or Spanish sauce, it is suggested that the cooked cauliflower may be placed in a casserole with the sauce and topped with cream cheese before baking in a hot oven. The Oriental sauce may be served around the cauliflower, with extra on the side if you like.

Cauliflower Oriental
1 medium onion, finely chopped
1 cup diced celery
3 sprigs parsley, finely chopped
1 tablespoon butter
1 bouillon cube
1 cup hot water
1 tablespoon cornstarch
1 tablespoon soy sauce
Dash pepper
1 medium cauliflower, cooked and drained
Saute onion, celery and parsley in butter until tender. Dissolve bouillon cube in hot water and blend in cornstarch. Add soy sauce and pepper. Add to onion and celery mixture. Cook over low heat, stirring constantly, until mixture thickens. Place cooked cauliflower in serving dish and pour sauce over it.

Cauliflower Spanish
1 medium head, or 2 packages frozen cauliflower
3 tablespoons butter
2 teaspoons salt
3 tablespoons flour
2 teaspoons Angostura bitters
1 cup water
1 package (3 ounces) cream cheese
Parsley sprigs
Brown fresh cauliflower into three tablespoons of butter and cover and cook in cold salted water for 5 to 10 minutes. When drained, place in casserole and cover with salted water. Bring to a boil and cook eight to 10 minutes. Drain.

Cook frozen cauliflower according to directions on package.
Melt butter, add salt and flour and stir over low heat until smooth. Mix Angostura bitters with milk and add gradually to flour mixture, stirring constantly over low heat until mixture thickens. Add cooked cauliflower to sauce and pour mixture into baking dish.
Dot top with pieces of cream cheese and bake in hot 450-degree oven until sauce bubbles and cheese is slightly browned. Garnish with parsley sprigs. (Copyright, 1957)

**Try Ham 'n Yam
Swedish Supper**

The next month should find yams at their best, so combine them with ham for this sure-to-please supper.
Swedish Yam-Ham Supper
2 tablespoons butter
1 cup mashed, cooked Louisiana yams, or 1 can (1 pound) Louisiana yams, drained and mashed
1 pound ground ham
1 egg, beaten
1 teaspoon nutmeg
1 teaspoon cinnamon
1 teaspoon allspice
1 cup commercial sour cream
Melt butter. Add yams, ham, egg and spices. Cook over low heat 30 minutes, stirring occasionally. Add cream and mix well.

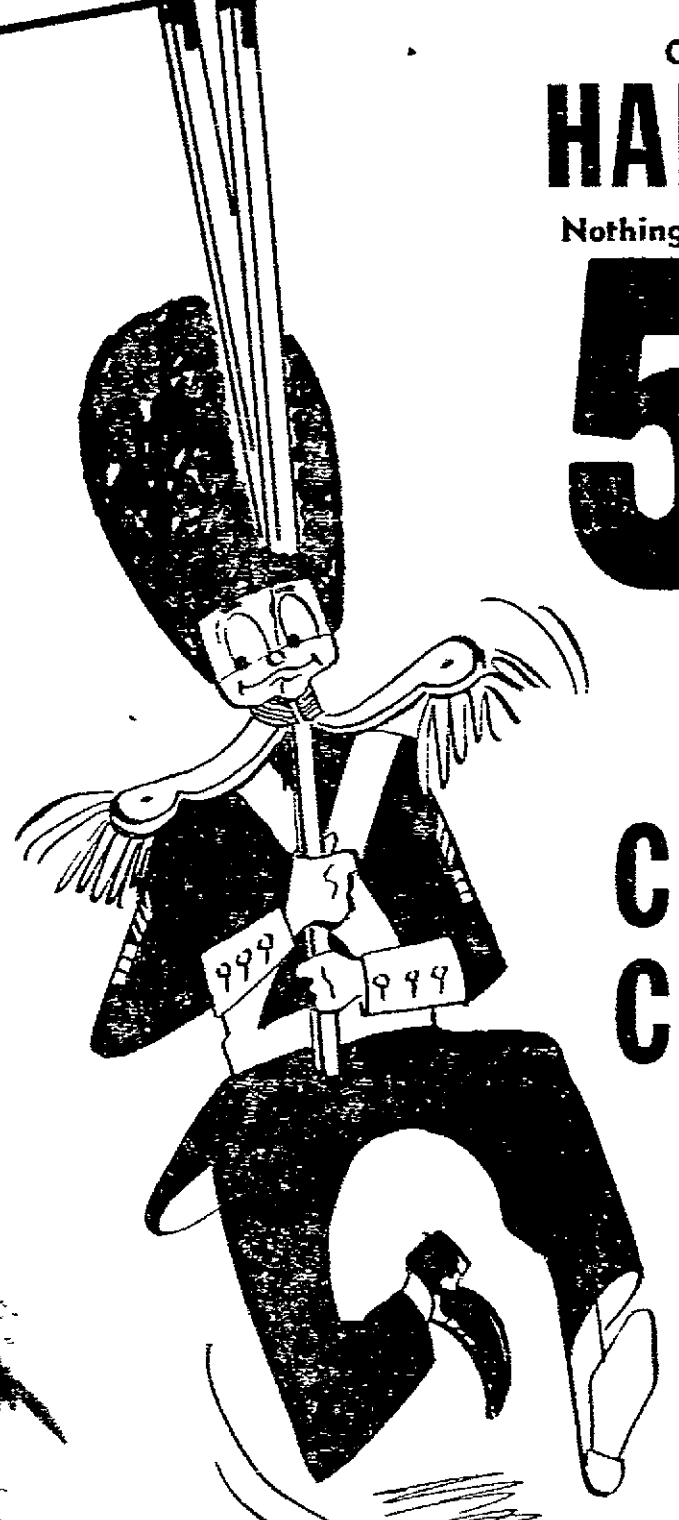

**Add Plain Gelatin
To Whipping Cream
For Frosting, Filling**

Whipped cream that is to be used as a frosting or filling for cake will hold up for hours in the refrigerator if you add a mite of gelatin to it.
There is a trick, however, to getting the gelatin whipped into the cream without lumping. One of the easiest and most practical techniques is this one. Softer: 1 teaspoon of plain gelatin in 1 cup cold water. Dissolve the gelatin over boiling water, then let it cool slightly. Beat 1 cup of heavy cream until frothy. Slowly—very slowly—add cooled gelatin to the cream and continue beating after each addition until the cream is fluffy. Last beat in about 1 cup sifted confectioners' sugar until cream stands in soft peaks.

Frosting for Brownies
To make an easy and delicious chocolate frosting for brownies, combine one-half cup firmly packed brown sugar, one-fourth cup water, and two squares chocolate in a saucepan. Let it come to a boil and cook for three minutes. Stir in

Contract Let For Purchase Of Gasoline

Aldermen Increase Prices of Cemetery Lots in Menasha

Menasha — The bid of the A. E. Schultz company of Neenah of 14.2 cents a gallon for a six months supply of gasoline was accepted unanimously by the council Tuesday night. Aldermen also authorized increased rates for cemetery lots.

The Schultz company bid was the lowest of four submitted. Others were from the Badger Oil corporation, Menasha, 14.59 cents; Wisconsin Lubricating and Oil company, Menasha, 14.53 cents; and Socony - Mobil Oil company, Milwaukee, 14.99 cents.

Cemetery lot prices were set at \$37 for single grave lots; \$75 for two graves; \$112 for three graves; \$150 for four graves; \$187 for five graves; \$225 for six graves, and \$300 for eight graves.

The price of grave openings was increased from \$25 to \$30; the placing of monuments in Resthaven cemetery before a lot is paid for and permission is obtained from the mayor was forbidden, and Joseph Scovronski was appointed sexton in charge of Resthaven cemetery, succeeding Clifford Allen.

Earl Kohler, city mechanic, was appointed assistant superintendent of the street department and the pay of Jack Ludwikowski, city street department employee, was raised from the labor pay schedule to a truck drivers pay.

Nine Hour Day

Street crews will work a 9-hour, 5-day week in 1958. It was decided. The work day will be from 7 o'clock in the morning until 12 noon and from 1 to 5 o'clock in the afternoon.

Purchase of a pickup truck from Victor A. Kuhns of Appleton for \$875 to be used as a service truck for the city garage was approved. The purchase of 22½ tons of salt also was approved.

The council voted to prohibit parking on the south side of Third street, 200 feet west of the DePere street intersection, and to allow parking on the west side of Racine street from Broad to Main streets from 6:30 to 8 o'clock in the morning and 3:30 to 5 o'clock in the afternoon on Monday through Friday.

The old Fourth ward voting building will be moved from the street garage area to a location north of the water and light department quonsets; changes were incorporated into the new city traffic code adopted in September, and \$18,983 was transferred from the 1957 surplus fund to the 1957 street outlay account.

MHS Frosh Squad Bids For 5th Win

Menasha — Coach Leo Kenney's Menasha yearlings will resume their Fox Valley Freshman league basketball schedule Thursday afternoon at Appleton against Wilson Junior High school.

Going into the 1958 portion of their schedule, the Junior Jays have four straight wins. They hold a half game advantage over Kimberly, which is unbeaten in three starts.

The Jays have won all of their games by margins of 13 points or more. Wilson has a 2-1 league record on wins over McKinley and Neenah and a loss to Roosevelt.

Neenah draws a bye from league play this week but will entertain New London in a non-conference game Friday afternoon. The Rockets are winless in four "Valley" starts.

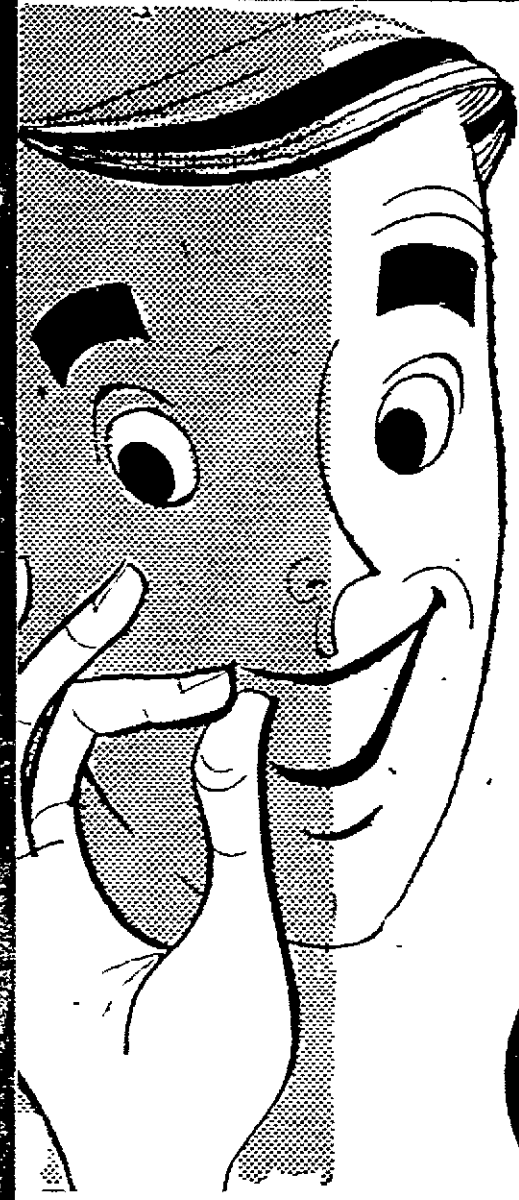

42 Oak Street Residents Told to Change House Numbers

Menasha — Forty-two house renumbering changes were made on Oak street on the Island in Menasha to bring the total number of changes to 748. Change notices were mailed to Oak street residences Tuesday.

Residents are to make number changes within 30 days after they receive the cards. Old house numbers are also to be kept up along with the new numbers for two or three months.

Rubbish Collection

Neenah — Rubbish will be collected Thursday in the Eighth ward east of Walnut street and the Chicago and North Western railway tracks and in the First ward between Fairview avenue and Laudan boulevard according to City Clerk R. V. Hauser.

Dillon, Ringo and Howton Named To All-NFL Team

AP Selects Jimmy Brown as 'Player, Back and Rookie of 1957'

New York — (AP) — Three Green Bay Packers — defensive halfback Bobby Dillon, and offensive end Bill Howton and center Jim Ringo — Tuesday were named to the National Football league All-Star team selected by the Associated Press.

Dillon received 29 votes of a possible 36.

Jimmy Brown, Cleveland's bulldozing fullback, swept the boards, gaining quadruple honors as the player, back and rookie of the year besides getting the most votes on the All-Pro team.

The 220-pound musclemen was the only member of the Browns to earn a place on the 2-platoon team. San Francisco

notched four berths while Baltimore, Green Bay and the champion Detroit Lions earned three places each.

Brown was named on all 36 ballots of the sports writers covering the NFL campaign. He received 34 votes for the fullback spot and two for left halfback.

Gino Marchetti of Baltimore attracted the second highest total of votes, 35, for an end position on the defensive team. Detroit's great linebacker, Joe Schmidt, was next with 34 votes.

He was followed by offensive end Billy Wilson of San Francisco, 33, and Washington's defensive end, Gene Brito, 31.

Eleven players, led by Schmidt and Brito, were repeaters from the 1956 All-Pro team. They included tackle Lou Creekmur and halfback Jack Christiansen, Detroit; tackle Roosevelt Brown and halfback Frank Gifford, New York; tackle Art Donovan, Baltimore; middle guard Bill George, Chicago Bears; halfback Ollie Matson, Chicago Cardinals; Howton, Green Bay; and guard Dick Stanfel, Washington.

Played at Syracuse Brown, who leaped from All-America fame at Syracuse university to a regular fullback berth with the Browns in one year, piled up 33 of the 36 votes to waltz off with the freshman prize. He also received 19 votes as the outstanding back and was named on 14 ballots as the circuit's No. 1 player.

Y. A. Tittle, San Francisco's veteran quarterback, was second to Brown in the best back and player of the year category. He had six votes for the first and 10 for the second. Baltimore's young quarterback Johnny Unitas was third in each department with five and seven votes.

Brown repeated Alan Ameche's feat of two years ago, leading the NFL at rushing in his rookie year. The 22-year-old drove 942 yards while spearheading the Browns' ground game to provide the major contribution in Cleveland's capture of the Eastern division title. In addition, he led all non-kickers in scoring, totaling 10 touchdowns for 66 points.

The first team:

Offensive — LE, Bill Wilson, San Francisco; LT, Lou Creekmur, Detroit; LG, Duane Putnam, Los Angeles; C, Jim Riege, Packers; RG, Dick Stanfel, Washington; RT, Roosevelt Brown, New York; RE, Bill Howton, Packers; QB, Y. A. Tittle, San Francisco; LH, Frank Gifford, New York; RH, Ollie Matson, Chicago Cardinals; FB, Jim Brown, Cleveland.

Defensive — LE, Gino Marchetti, Baltimore; LT, Lou Napolitano, San Francisco; LG, Bill George, Chicago Bears; RT, Art Donovan, Baltimore; RE, Gene Brito, Washington; LBs, Joe Schmidt, Detroit and Norm Matson, San Francisco; HBs, Bobby Dillon, Packers, and Jack Christiansen, Detroit; DBs, Butch Pflueger, and Milt Davis, Baltimore.

Wilt Still Out

Kansas Suffers Second 2-Point Loss in Row

By The Associated Press

While Kansas may not be a one-man team, the Jayhawks would be in a sad way if they had to go through the season without Wilt "The Still" Chamberlain.

The gangling sophomore has missed Kansas' last two games because of an infection. Until he was taken ill, the Jayhawks had a 10-0 record. Last Thursday, Chamberlain was in the hospital and Oklahoma State beat Kansas 52-50.

Hits Set Shot

Tuesday night, the 7-foot All-America still was ailing, and Oklahoma pulled out a 64-62 decision over Kansas in a Big Eight game in Norman.

With just 6 seconds remaining, Oklahoma's Gene Hudson beat Kansas 52-50.

While the Jayhawks, second in the West Virginia in this and Bob Krause added 16 for week's Associated Press poll, were losing, third-ranked North

Dodgers Faced With Threat of Initiative

Pasadena Citizens' Group to Begin Circulating Petitions

BY CHARLES MAHER

Los Angeles — (AP) — Baseball — someone once said with pithy wisdom — is a game of inches. No term of measurement could better describe the meager progress made by the Brooklyn Dodgers since they started looking for a place to play in spacious Southern California.

When they left Brooklyn for Los Angeles and announced they wanted to build a magnificent stadium here, they ran into a referendum.

Citizens' Group Objects

Now they just want to rent a stadium — way out in suburban Pasadena — and they've run into the threat of an initiative.

This state of affairs has prompted the following observation from one member of the Dodger staff: "The situation is getting ridiculous, and what

the solution is I frankly don't know."

The latest trouble was brewed by a Pasadena citizens' group that doesn't want the Dodgers in the Rose bowl, which the team has expressed interest in renting.

At the weekly meeting of the Pasadena city board of directors, Atty. Lee G. Paul announced that the citizens' committee for the Rose bowl municipal park will circulate initiative petitions in a move to gain passage of an ordinance that would keep professional baseball out of the bowl.

Paul said a 1923 contract between the city and the Tournament of Roses association provides that the bowl may be used for no more than three regularly scheduled events in any 30-day period. If admission is charged.

Paul said fewer than 3,000 registered voters would have to sign petitions to get the measure on the June ballot.

Said Dodger President Walter O'Malley: "I don't know what this initiative movement means. I believe it is a civic thing and we will continue with our negotiations (with Pasadena city officials)."

In Los Angeles next June, the voters will approve or reject a contract that would give the team a stadium site in centrally located Chavez ravine.

College Discontinues Ice Hockey Because Of Talent Shortage

Superior — (AP) — Superior State college announced Tuesday it is discontinuing ice hockey temporarily as a sponsored sport because of the lack of player material of competition calibre.

The Athletic committee said it would "venture into a modified spring sports program including tennis and golf" in which the State College conference offers varsity competition.

Kimberly '5' Seeks to Halt Shawano Win Skein at 17

Neenah Will Play Host to New London

MID-EASTERN CONFERENCE				
	W	L	TP	OP
Neenah	4	0	253	200
Shawano	4	0	283	163
Kimberly	3	1	243	217
Menasha	2	2	257	215
Two Rivers	2	2	259	229
Kaukauna	1	3	188	247
Clintonville	0	4	168	271
New London	0	4	175	285

Friday's Games

Menasha at Kaukauna.

New London at Neenah.

Kimberly at Shawano.

Two Rivers at Clintonville.

BY GEORGE MANCOSKY

Post-Crescent Staff Writer

Neenah — The Mid-Eastern conference resumes basketball play Friday evening after the holiday lull with the Kimberly-at-Shawano fracas drawing top billing.

Other tests on the program send Menasha to Kaukauna.

Two Rivers to Clintonville, and New London to Neenah.

Only Kimberly, Shawano and Neenah have seen interscholastic action since the last round of conference games on Dec. 21.

Kimberly Wins Two

The third place Papermakers turned back St. Mary and St. John, a pair of Fox Valley, Catholic conference entries; Shawano downed Marinette to notch its seventeenth straight win over a 2-year period; and Neenah picked up its ninth straight win against Janesville.

After Friday's game, Kimberly will have met the other four league clubs with records of .500 or better. It defeated Menasha and Two Rivers but lost to Neenah. Shawano's only venture against a first division foe resulted in a 12-point triumph over Menasha.

The defending state champs rank as the conference's top scoring outfit with 283 points in four games for an average of 71 per game, and they have only allowed 167 points for the best defensive record. Kimberly ranks fifth in offense and third in the defensive column.

Notches 21 Points

Marty Gharriy and John Cantwell have been bearing the brunt of the Shawano scoring attack but in Saturday's 26-39 win over Marinette, big Norm Ostepich, Milwaukee transfer, notched 21 points for his best night of the year. The game will mark the conference debut of Papermaker freshman Dave Minton, who made six points in the St. Mary's game in his initial varsity start.

Neenah, a 1-point winner over Janesville last Saturday night, is a big favorite to make New London its tenth straight victim. The Bulldogs have seven straight losses but they have played Two Rivers, Shawano, Menasha and Kimberly, four of the five top entries.

The Rockets have the fourth best offensive record and they rank right behind Shawano in defense. New London is seventh in both the offensive and defensive departments.

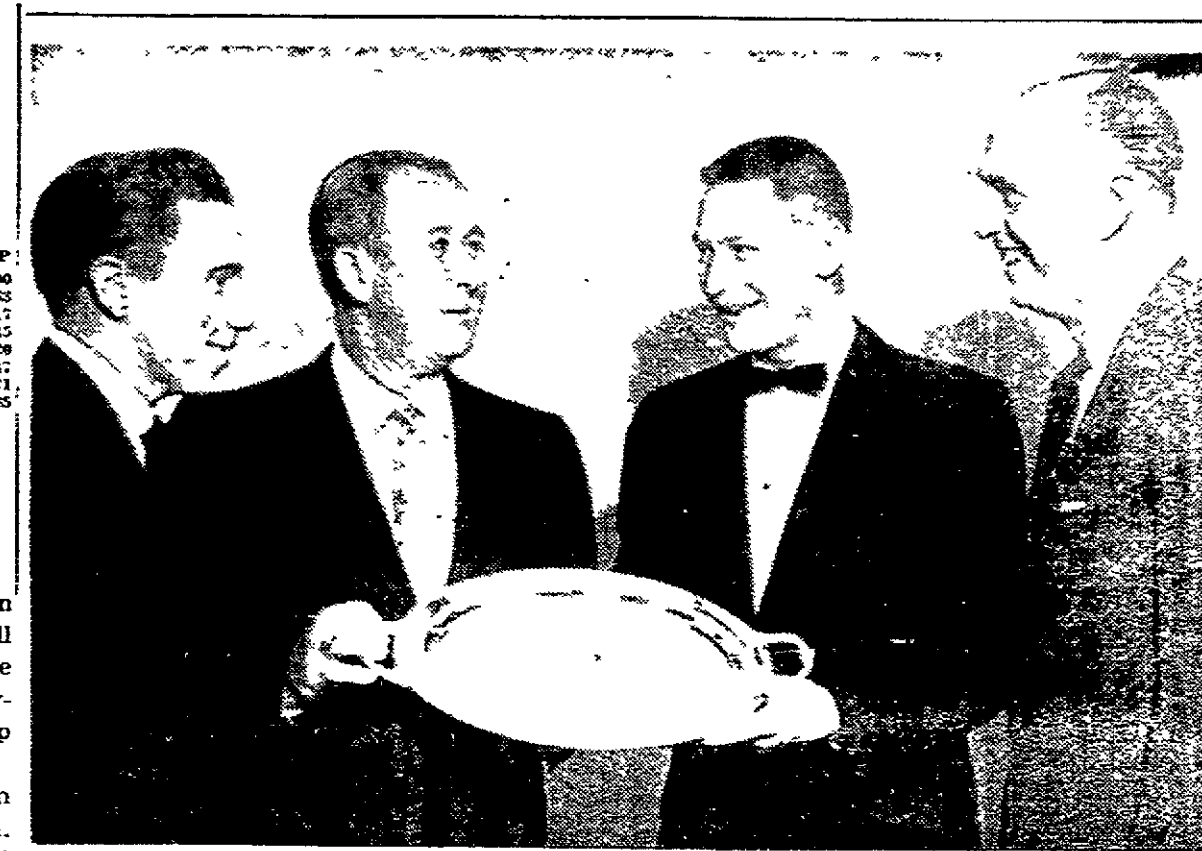

Ghosts Improved

The Menasha-Kaukauna game could be a close one. The young Ghosts were much improved in pre-holiday play, with two wins in their last three starts. Menasha ended its 1957 play with a one-sided win over Clintonville and now has an overall 3-4 record.

Two Rivers, paced by Ron Brault, the conference's leading scorer, is the choice to chalk up its third win in five starts at Clintonville. Brault has 110 points to lead Gharriy by four. The Raider senior has scored 30 or more points in three of his four conference outings.

Mackay, Holmberg Gain Semis of Net Tourney

Perth, Australia — (AP) — Barry Mackay, Dayton, Ohio, and Ron Holmberg, Brooklyn, gained the semi-finals of the men's doubles in the West Australian Tennis championships.

Don Hoak, Second From Right, who came to Cincinnati last year a virtual castoff, won the Grayson trophy Tuesday night as the Redlegs' most valuable player of 1957. The trophy was presented by the Cincinnati chapter of the Baseball Writers of America at a dinner. From left, are: "Pee Wee" Reese, Los Angeles Dodgers' shortstop; Redleg Manager "Birdie" Tebbetts; Hoak; and Dodger Manager Walter Alston. (AP Wirephoto)

'Senior' Backfields Begin to Shape Up

Christy, Taylor and Nitschke Are Likely to be Starters

Mobile, Ala. — (AP) — A full day of drills in near-freezing weather was planned today for both squads as coaches sought winning combinations of platoons and plays for Saturday's Senior bowl football game.

The North and South backfields began to shape up tentatively during the first long outdoor drills Tuesday.

South coach Paul Brown of the Cleveland Browns leaned more to a backfield composed of quarterback George Walker, Arkansas; halfbacks Dick Christy, All America from North Carolina State, and Phil

King, Vanderbilt; and fullback Jimmy Taylor, Louisiana State.

Christy and Taylor are Green Bay draft choices.

North coach Joe Kuharich of the Washington Redskins had two Michigan State players in his No. 1 backfield — quarterback Jim Ninowski and halfback Walt Kowalczyk. Others in that unit were Mike Sommer, George Washington; and Ray Nitschke, Illinois. (Nitschke is another Packer draftee.)

Brown's South team won last year, 21-7, to give him a 5-1 senior bowl record. Last year, was Kuharich's first. The South has won five Senior bowl games, the North three.

The ninth annual game will be televised, by NBC, for the first time, with a 100-mile radius of Mobile blacked out to insure Country club.

They switch sites Friday first time, with a 100-mile radius of Mobile blacked out to insure Country club.

The game will be played in 60 pros and ties will move to 36,000 capacity LaCdr stadium. Kickoff is set for 2 o'clock, CST, and Sunday rounds.

Philadelphia — (AP) — The name of Lou Rymkus, Green Bay Packers line coach, has popped up among the rumors about head man of the Los Angeles selection of a new Philadelphia Eagles head coach.

Hugh Devore has n't been fired as head coach here, but everyone, including Devore, knows he's out. The club has kuss; Dick Gallagher, assistant said nothing officially.

The word here is that Devore will work out the final year of his 3-year contract in some other job in the Eagles front office.

of the Chicago Cardinals.

Jarock Rejects Offer to Play Canadian Ball

De Pere — (AP) — Norm Jarock, Little All-America halfback at St. Norbert college, said today he has refused an offer to play football in Canada and will take his chances on being drafted by the National Football league.

Jarock said he told Jack Jacobs, former NFL star now head coach of the London Lords, that he is "definitely not interested in playing in Canada."

Shiocton Five Defeats Foxes

Charlie Schwandt, Kruzicki Combine For 44 Points

Shiocton — Shiocton High school, of the Little Nine conference defeated Fox Valley Lutheran, 60-48, in a non-conference basketball game here Tuesday night.

By breaking the Foxes' attempted press in the opening quarter, Shiocton gained an early lead and held it all the way. Forward Charlie Schwandt of the Chiefs was hot underneath the basket and hit for 21 points. High man for the victors was Myron Kruzicki with 23.

Fox Lutheran was hurt by its lack of height. Shiocton's command of the boards was a big factor in its win.

A bright spot for the losers was the long-range shooting of Ron Howes. He scored 18 points, 16 of them on field goals.

'Sugar' Hart Favored to Defeat Baker

Chicago — (AP) — "Sugar" Hart, who has scored 19 knockouts in winning 22 fights, is an 11-5 favorite tonight to defeat Larry Baker in another phase of the "welterweight sweepstakes."

Baker, 26, from Mount Vernon, N. Y., is ranked the No. 8 contender by the National Boxing association. His record is 21-11-3 with nine kayoes.

Hart, 21-year-old Philadelphia, has a No. 9 ranking after coming along fast with only three losses and a draw in 26 starts. He was a national AAU champion before turning pro in 1954.

The 10-round, which will help keep the line moving for chances at Carmen Basilio's vacated 147-pound title, will be televised (9 o'clock, CST, ABC) from Chicago stadium.

Carroll '5' Squares Season's Record

Waukesha — (AP) — Carroll college balanced its season basketball record at four victories in and four defeats Tuesday night with a set shot and it was by beating Northwestern of Wa. all over. Ron Loneski had 27 tertown. 79-53, in non-conference action.

Dale Johnson scored 18 points to idle West Virginia in this and Bob Krause added 16 for week's Associated Press poll, were losing, third-ranked North

While the Jayhawks, second in the West Virginia in this and Bob Krause added 16 for week's Associated Press poll, were losing, third-ranked North

County Board Tosses Ball to Braves Again

Approves Plan Developed by Its Park Committee

Milwaukee —2— The ball was tossed to the Milwaukee Braves again Tuesday as the Milwaukee County board approved another rental agreement for Milwaukee County stadium and presented it to the baseball club for consideration.

The proposed 5-year pact was developed by the board's Park and Recreation committee and would gross the county approximately \$400,000 a year based on the 1957 attendance. County income last year was about \$200,000 under a 5-year agreement that expired Dec. 31.

Club President Joseph Cairnes was en route to Los Angeles and not available for comment on the new offer. There was no hint of what the club's next move might be.

2-Month Wrangle

The supervisors and the ball team have wrangled for nearly two months over the new contract. The latest compromise offered by the county calls for seven per cent of gate receipts, after deductions, and 15 per cent of most concession income. The county received five per cent of each item under the old pact.

The new plan guarantees the county a minimum annual income of \$400,000 if the Braves decide to televise their games and gives the club the option of reopening contract talks if they decide not to pay the minimum. The pact also provides the county would receive an additional \$25,000 in the event of another World Series in Milwaukee.

Low Burdette's Series Hurling Rated Top Sports Thrill

New York —2— The Milwaukee Braves, darlings of the sports world after their World Series victory in October, continued today to reap the winter harvest of honors in year-end polls selecting sports highlights of 1957.

It was announced Tuesday that the Braves had been voted "team-of-the-year" in an Associated Press poll, and in another AP-sponsored ballot Low Burdette's series pitching feat was hailed as the sports "thrill-of-the-year."

Actually, Burdette and the Braves overshadowed the field in the thrill department. Milwaukee as a team, and with individual performances like Ed Mathews' tenth inning homer in the fourth game, piled up 43 first place votes. Added to Burdette's total of 64 firsts the 1957 Milwaukee season and series victory gave the Braves a total of 107 firsts.

ND Win Is Third

Burdette won the thrill honors on his three victories over the Yankees as the Braves gave Milwaukee its first world championship. The raw-boned gem from West Virginia was the first 3-time series winner since Harry Brecheen of the Cardinals in 1946. And he was the first to pitch two shutouts since Christy Mathewson blanked the Philadelphia A's three times for the Giants in 1905.

Notre Dame's 7-0 victory over Oklahoma that ended the Sooners' 47-game football vic-tory string was third behind the Braves and Burdette. It was the first shutout handed Oklahoma in 123 games.

Commenting from his home in Los Angeles on the "team-of-the-year" award, Manager Fred Haney said his Braves deserved it.

"I'm very happy and very proud," said Haney. "I know the boys will appreciate it." He declined to nominate any players for special honors saying, "Let's keep it as a team thing."

The Braves received 133 first place votes from the 211 sports writers and broadcasters participating. On the basis of

NBA's Top Scorers Have Poor Nights

By The Associated Press

George Yardley, Bob Pettit and Clyde Lovellette, three of the top four scorers in the National Basketball Assn., were at work Tuesday night, but a bunch of kids and an old geezer named Ed McCauley made 'em look like three guys called Joe.

Yardley, the balding, skinny shooter who leads the league with a 27-point average, hit only two shots from the field and wound up with 11 points for Detroit as Cincinnati crippled the Pistons, 114-99. Jack Twyman, with a 17-point average, was the big man for the Royals, scoring 26, while Lovellette, sporting a 24-point average, scored 18.

In the second game of the Madison Square garden double-header in New York, Pettit, No. 2 with a 26-point average despite a broken finger, also finished with only 11 points, leaving the big job to McCauley, who counted 25, in a 114-112 decision over New York by St. Louis.

Richie Guerin, Guy Sparrow and Willie Naulls each hit 20 or more for the Knicks, topped by Guerin's 26.

Snider Reports His Patched-Up Knee Is Coming Along Fine

Los Angeles —2— Duke Snider, a recent guest in the surgeon's chambers reports that his patched-up left knee is coming along fine.

"The knee is still a little stiff and sore," the Los Angeles Dodger outfielder said Tuesday. "But it's feeling better day by day."

Snider, who owns an avocado ranch in San Diego county south

Three Big Ten Members Quit Hockey Circuit

Ann Arbor, Mich. —2— Michigan, Michigan State and Minnesota today withdrew en masse from the 7-team Western Inter-Collegiate Hockey league.

The withdrawal of the three Big Ten schools will not affect this season's play. It becomes effective in six months, according to a letter sent to league secretary William A. Longacre of Michigan Tech by Prof. Marcus L. Plant, Michigan's Big Ten faculty representative.

Remarking in the loop are Michigan Tech, North Dakota, Colorado College and Denver. The move had been rumored since last March.

Plant said the schools are withdrawing primarily because of different eligibility rules between the Big Ten and other schools in the league. The league was organized in 1951.

Rinse, Grease All Potatoes Before Baking

Baked potatoes always fill the bill, but perhaps we appreciate them more after the holidays when we have probably been plied with much rich food. They are so easy to prepare. The only equipment necessary for preparing them is that pre-heated oven which should be set at 400 degrees. Because so many people enjoy eating the crunchy skin, it is a good rule to rinse the potatoes, then grease the skins lightly before baking.

In bygone years when we purchased potatoes, we were quite likely to have an unwanted dividend of clinging earth. Practically all of the potatoes in market today are scrubbed, and the finest of the crop are wrapped individually in paper. Maine has always produced good potato crops but, until recently, the potatoes were not scrubbed so carefully or graded as to size. Idaho, a newer source of this vegetable, practically ran away with the market for baking potatoes because of the consistent quality and size of the potatoes it sent to market.

The time of baking depends upon the size, but three-quarters of an hour is average. To test, press each potato with a towel. Then, when soft enough, break it open at once to let out steam. Wrap the potatoes in a towel until you are ready to serve the meal.

Hashed Browned Potatoes
1/2 cup bacon fat
4 cups finely chopped boiled or baked potatoes
1/2 teaspoon pepper and salt
Heat bacon fat in heavy frying pan. Add potatoes and pepper and stir constantly over low heat about five minutes. Add salt if necessary.

Press potatoes firmly with wooden spoon to form a flat cake and continue cooking over low heat until brown underneath and loose from the pan. Shake pan occasionally to prevent sticking. Fold with a spatula and turn out on hot platter.

Tried-out salt pork fat may replace the bacon fat.
Potatoes Hashed in Cream
3 cups diced cooked potatoes
3 tablespoons butter
2 cups thin cream (about)
Salt and pepper
Dice potatoes in small even-sized cubes. Melt butter in heavy frying pan, add potatoes, and stir over medium heat until butter is absorbed. Add cream, and cook over low heat about 20 minutes, until mixture is thick. Season to taste with salt and pepper.

Potatoes cooked in this manner are delicious when poured in a greased baking dish, covered with buttered crumbs, and put in a hot, 450-degree oven to brown lightly.

Birth Rate in Austria Climbs, Newspapers Say

Vienna, Austria —P— Austria's booming economy has shown an effect where it is badly needed — on the country's birth rate.

"The Austrians are not a dying people any more," newspapers say.

The increase in the birth rate reversed a trend which had worried Austrian leaders. Some experts had figured out that Vienna would have been a "dead city" in 140 years if the decline had continued. At one time in recent years, Austria had the lowest birth rate in the world.

But the Austrian statistical office now reports that the "reproduction level" in Austria has reached the magic figure 1.01. This means that—even if only by one hundredth of 1 per cent—more Austrians are born than die. It's the first time this has been true since the war.

The office reported that Austria had 6,983,900 inhabitants in 1956. In that year 115,827 babies were born, 7,000 more than in 1955.

Americans Spend More On Music Than Baseball

Dallas —P— "Good music grosses at the box office \$45 million annually to baseball's \$40 million," the executive board of the American Symphony Orchestra league was told Monday.

It heard this report from Mrs. Helen M. Thompson of Charleston, W. Va., executive secretary of the league. She spoke at a board session held to map plans for the annual convention next June 11-14 in Nashville, Tenn.

"Americans spend \$200,000,000 on recorded music, 40 per cent of which goes for the classics," Mrs. Thompson said.

Coffee Becomes Top Ice Cream Flavor

Coffee ice cream soon may replace strawberry in the country's ice cream affections, according to one of the leading producers of ice cream.

A recent report shows that coffee ice cream now ranks with vanilla and chocolate as its three most popular flavors.

Use Crisp Bacon For Sandwiches

Fry some extra bacon at breakfast time to use in sandwiches for school or work lunchboxes. Crisp-fried, well-drained bacon makes a hearty sandwich filling, either in strips or crumbled with a filling mixture. Here are some suggestions for using bacon in sandwiches:

Place bacon strips between

buttered slices of Vienna bread with chili sauce or catsup. Mix crumbled bacon with peanut butter and mayonnaise and spread on whole wheat bread.

Place bacon strips on crack-

led wheat bread spread with tablespoons of hot milk and a generous lump of butter. Whip Funk. AVS trades and industry with a fork until puffy and feather light. Add more salt and pepper if necessary.

Mashed Potatoes Still Good on Second Day

Mashed potatoes can be just as light and fluffy the second day as the first.

Simply place the potatoes in top of double boiler over water. Cover pan and heat until piping hot. Then add a few members and employees of Lar-

ry's Ambulance service, E. H. ed baking dish, cover with cooked cubed ham; pour over a sharp cheddar cheese sauce, sprinkle with crumbled potato and bake until bubbly.

AVS Plans First Aid Course for Police, Firemen

The Appleton Vocational

school will sponsor a 12-class first aid instruction series for police and fire department

members and employees of Lar-

ry's Ambulance service, E. H. ed baking dish, cover with cooked cubed ham; pour over a sharp cheddar cheese sauce, sprinkle with crumbled potato and bake until bubbly.

Colony Getting Patients of Low Mentality

More Dependent Inmates Cause Complications

Post-Crescent Madison Bureau

Madison — Patients of lower mental ability are being committed to the Southern Wisconsin colony for training of mentally defective children, the state board of public welfare has learned in a report from Supt. John M. Garstecki.

There has been a trend for the commitment of patients who are more dependent upon the institution staff for intensive care and supervision, the colony chief said in a survey of recent admissions statistics. Complications in the institution's housing arrangements have resulted. He urged adaptation of some of the institution's cottages, originally designed for patients of higher mental capacity, to make them suitable for those being received today.

1,400 Population

The institution now has a patient population of about 1,400, and has a waiting list of several hundreds unable to be admitted because of lack of space.

Garstecki reported that only about 4 per cent of his patients are now in the upper level of ability, called for institutional classification purposes "dull, normal and borderline."

About 17 per cent are called "educable" and about 35 per cent "trainable."

But the largest group, comprising about 44 per cent of the total, is totally dependent and is probably committed on a permanent basis.

Quick Freezing Holds Meat Flavor

If your home freezer or freezer compartment is not capable of maintaining a temperature of 0 degrees F. or lower, do not attempt to freeze meat in it. It's the quick freezing at low temperature which holds the fine flavor of meat while it is in the freezer compartment.

To keep maximum flavor in the meats you choose for freezing, process them as soon as possible after purchase. The fresher the meat, the better will be its keeping quality while frozen. Freezing doesn't improve meat — it can only keep the meat as good as it was before freezing.

Cured and smoked meats and fresh pork sausage deteriorate rapidly in flavor when frozen. Thus it is recommended that some of these products not be frozen and that others be stored frozen for limited periods only.

Not recommended for freezing are sliced bacon, bologna, frankfurters or wieners, and fresh pork sausage. Recommended for short term freezing are smoked hams, picnics, slab bacon, and other cured and smoked meats.

Gov. Thomson Joins In Objecting to Cut In Dairy Price Props

Madison — Gov. Thomson joined with other Wisconsin elected officials Tuesday in objecting to a proposed cut in dairy price supports by the federal government.

Secretary of Agriculture Benson announced recently that the government support on dairy products would be cut to 75 per cent of parity next April.

"The recently announced reduction in dairy price supports," the governor said, "is a grim reminder that the farm program, like its predecessors, does not provide a realistic and lasting peacetime solution to our farm problems."

"There is no evidence that the lowering of dairy price supports to 75 per cent of parity will achieve the results of lowering production or substantially increasing consumption of milk, although this is the intent of the 1949 law under which the secretary of agriculture administers the flexible support program."

Stanford Coeds Have Wide Choice of Dates

Palo Alto, Calif. — A Stanford coed still has 2.90 men students available for dates.

The ratio of women to men remains the same, Registrar Harvey Hall, said Tuesday after listing the largest enrollment for a single eight-hour registration in Stanford's history. He signed up 7,650 returning winter quarter students.

4-H Club Membership Drive Gets Underway Next Week

Program Open to Urban Youths As Well as Those on Farms

BY JOE WALKER
Outagamie County Club Agent

"We're joining a 4-H club,"

This is the statement made each year by over 800 rural and urban boys and girls in Outagamie county. Next week these 4-H'ers and their 208 adult leaders take the opportunity to in-join in the activities and events of the Outagamie county 4-H program.

Four-H has been thought of as a rural organization and 50 years ago it was. The original 4-H clubs started in the grade schools where rural boys and girls studied nature and grew into new varieties of corn.

Now in many counties there are as many urban boys and girls as rural. Even in some of the larger cities such as Chicago and New York the 4-H movement has taken place. county fair where all articles here in Outagamie county are judged and placed accord-

ing to the quality of work that was done. Our members learn to judge different articles and learn to talk before groups by taking part in 4-H demonstration contests and speaking contests.

4-H Leaders Teach Youth Citizenship

Each Club Has Adult Adviser to Aid in Planning

Being a 4-H leader is a way of helping youth of today to be better and more useful citizens. Each of the clubs in the county has at least one general leader who is coordinator of the club events and helps the officers in planning the club program and month to month activities.

In addition each club has adult project leaders who assist in teaching the foods and nutrition, conservation or leather projects. These leaders attend project training sessions presented by the extension agents during the winter months.

In most clubs which have three or more members enrolled in a project there is one adult to help them.

Junior leaders are 4-H members who are at least 15 years of age who assist the adult leaders either in organization, project instruction or demonstration, recreation or record keeping.

The County Agent Answers

What kind of a dairy cattle feed is molasses?

Molasses provides a source of energy, improves the palatability, helps control the dust in mixed feeds, and improves the digestibility of roughages. As a source of energy, it is not worth more than corn and cob meal. Three to 5 per cent should do the job of improving the palatability, digestibility, and controlling dust.

Is it economical to feed molasses in the ration?

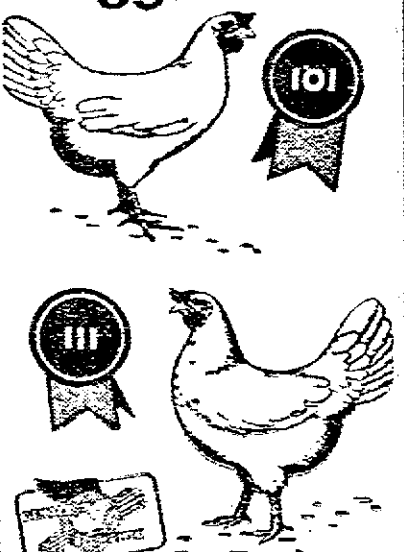

When the price of molasses is favorable as compared with corn, it should be economical to use up to 20 per cent. When the price is unfavorable as it has been recently, none or at most a very small amount should be used. If a dairyman is feeding silage and has reasonably good alfalfa hay, it is questionable whether the maximum 20 per cent should be fed even if the price is right. This high amount could have a scouring effect on the cattle.

What is meant by pre-treatment of dacron and dacron blend shirts and blouses?

To pre-treat a dacron garment, rub a thick paste of heavy duty detergent or laundry soap into the collar, cuffs or other soiled areas. Then, wash the garment in warm suds made with a heavy duty detergent. Squeeze the suds through the garment but do not

Delor, Moschler, route 2, Appleton, has been a member of the Woodlawn 4-H club for the last 10 years. She is now a junior leader with two more years of participation left to her. During her membership she has garnered an impressive display of awards. Last year she was awarded the Wisconsin 4-H Key Award which she displays in her lap, above. (Post-Crescent Photo)

Waupaca 4-H Clubs Aim At 800 Enrolment in '58

Members Prepare All-Out Drive For Next Week

Waupaca — A goal of 800 county 4-H club members has been set by Club Agent Eugene Hove for the coming "Join a 4-H Club Week," Jan. 11 to 18.

The county movement now boasts 740 members organized into 37 clubs. A total of 142 voluntary adult leaders donate their time to further the club's work and projects.

The local enrollment drive is being held in conjunction with a statewide drive for greater enrollment and interest in 4-H. Clubs in Waupaca county will organize enrollment committees and make visits to local schools, post displays and try to promote greater interest in club activities and projects.

Any youth who has reached the age of 10, but is no older than 21, may join the 4-H club, according to Hove. The requirements for membership are that he attend meetings, select a project and keep sin-

gle records of activities and exhibits.

Members also exhibit some part of their project at a public place, generally at the county fair.

Mueller Cow Tops Report

103-Pound Fat Test Heads DHIA Field Listings

A cow owned by Hilmer Mueller topped the most recent report from the Dairy Herd Improvement association with a fat test of 103 pounds of butterfat.

The Lehn Voight and son herd of 37 cows topped the county herds with 32-head, or 86.5 per cent, producing 49 pounds or more of butterfat. Two of their cows placed in the top 10. One produced 101 pounds for second place and another had a 95 pound test for seventh place.

The other top cows were owned by James Garvey, 100.27-head at 63 per cent.

The other top cows were owned by James Garvey, 100.27-head at 63 per cent.

Many Changes Seen In 4-H Programs Over Last 40 Years

Present Members Have Choice Of More Than 30 Projects

The present 4-H club member has many advantages over members of 40 years ago. The 4-H program, like everything else connected with agriculture and homemaking, has made rapid progress.

The present 4-H clubs have over 30 projects for members to pick. The first club members selected nature study or corn.

Many young farmers today can point to a cow in their present dairy herd and say "she was one of my 4-H club calves." By the same token many of our homemakers today make articles of clothing for their youngsters or prepare meals for their family and relate how this particular idea came from one of her 4-H leaders.

The 4-H club member is put on a competitive plane the same as he will contend with in later life. The end result of the 4-H project, the dairy calf, the skirt, the garden produce, or the plate of cookies are put into competition with other members throughout the county.

This is done at the county fair and the premium money given is of far less importance than the ribbon received. It is at the county fair that the work of the members is evaluated.

In selecting a 4-H project and keeping record on it the member accepts the responsibility of feeding an animal or completing a job he has started.

This project, which in many

pounds; Robert Paltzer, 97 pounds; Bert Weyenberg, 97 pounds; Clifford Bowers, 96 pounds; Marvin Krahn, 95 pounds; William Conradt and son, 94 pounds, and Leo Schampers, 94 pounds.

The top 10 herds included a James Garvey, 36-head at 75 per cent over 40 pounds; Robert Garvey, 36-head at 72.2 per cent; Clifford Bowers, 23-head at 70 per cent; Marvin Krahn, 29-head at 70 per cent; Robert Oudenhoven, 34-head at 67.7 per cent; John Kelp, 27-head at 66.6 per cent; Gorge, 26-head at 63.3 per cent; Chris Roepcke, 36-head at 63.8 per cent, and Hunter Lake, 100.27-head at 63 per cent.

Farm Spokesman Backs Move For Study of Rural Living

Post-Crescent Madison Bureau

Madison — Rural life in America is changing so rapidly that it is time the nation pauses to examine what is happening and why, says one of the state's most important rural economic organizations.

The Wisconsin Council of Agriculture, cooperative, has added its voice to those demanding a study under national government sponsorship — as under the direction of a presidential commission — of the new and important trends in the countryside.

Talking about the deep changes in rural America, Milo K. Swanton of the organization said, "Undesirable silage would be brown and have a sour or burnt odor. Good quality corn as well as crop and livestock silage is an excellent dairy cattle feed."

"Mechanized agriculture, de-

cases is the first thing the members has ever owned, is of great importance to him and each tries his best to do a good job.

In making the selection, the 4-H member chooses a project that fits in with his home situation. If the boy lives on a dairy farm he normally takes a dairy calf. A girl can take over some of the responsibilities of the home such as cooking, sewing or canning.

Projects available include beef and dairy calves, crops, care of fruit trees, garden, pigs and sheep, conservation, forestry, electricity, woodworking, clothing, foods and nutrition, food preservation.

Demonstrations and Contests Form Basis Of 4-H Club Teaching

Speaking and Exhibiting Projects Give Youths Poise, Confidence

Demonstrations and speaking contests are the basis of 4-H work. Showing and telling others is the 4-H way of teaching. How to make a miterbox, canning cherries, cheese torte, or a product. Dressing a calf, phase of the clothing project. Modeling a garment which she has made teaches a girl poise, good posture and a sense of color, line and appropriateness of material and pattern. It's important to sew a fine seam but it is more important that the dress fit the model.

Judging is something that adults do each time they go to the store to make a purchase. Local clubs often ask members to bring articles to a meeting to be judged. Selecting the best head of cabbage or the best cake may seem easy to an adult

with years of experience but to a 4-H member it affords the chance to learn to consider the color, weight, and uniformity of a product.

Dress revenue is an important phase of the clothing project. Modeling a garment which she has made teaches a girl poise, good posture and a sense of color, line and appropriateness of material and pattern. It's important to sew a fine seam but it is more important that the dress fit the model.

Club tours are an activity, which develop friendship between clubs. Each summer one-half of the clubs in the county are hosts to the other half. The visiting club stops at the homes of members to inspect projects. Leaders and extension agents make suggestions for improving the project and keeping records.

Older members often have an opportunity to attend state 4-H week on the campus of the University of Wisconsin. They meet other 4-H members and exchange ideas. They also have an opportunity to meet the university staff and to live in a university dormitory.

County fair is the foremost educational activity of the 4-H year. Making an exhibit is an educational experience. Premiums and ribbons are offered to worthy exhibits.

No. 4-H member is expected to participate in all of these activities but a variety is offered to meet the interests of all the 4-H members in Outagamie county.

Beauty and the Beast, but They're both champions. Marilyn Van Derbur of Denver, better known as Miss America of 1958, poses with the 1,100-pound grand champion steer at the Arizona National Livestock show. The champion steer returned a show record of \$3.20 a pound, or a \$3,552 price, to its owners, Sue White and Lloyd Robinson of Big Spring, Texas. (AP Wirephoto)

4-H Club Member Attests To Value of Participation

(The proof of the pudding is in the eating and the following is a testimonial from a 4-H club member attesting to the value of membership in the club. Clubs in the state will concentrate on enrolling members next week.)

BY ROBERT PALTZER, JR.

Each year 2 million boys and girls take part in 4-H work because it is a constructive program offering self-betterment, community improvement, and

good citizenship. It can be compared to a ladder with each year taking one step toward the future.

The club offers a wide selection of projects related to practical living on the farm and in the home. Members choosing according to their needs and personal ability. This promotes patience and faith.

Seeing one's work displayed with those of others and participating in activities with others develops sportsmanship and improves one's knowledge in doing things. Working for ourselves builds Americanism which is the foundation of any democracy.

Knowledge and experience in these projects are gained as we "learn by doing." For as Patrick Henry once said "I have but one lamp by which my feet are guided, and that is the lamp of experience."

Members gain valuable experience in speaking, judging, and demonstrating, and regardless of their walk of life, you can be sure his contribution to society will stand firm in the community.

These activities teach members to think for themselves and club meetings are conducted by members with parents as advisers. Awards are available in the form of ribbons and trophies, and local banks and clubs offer trips and scholarships. Or the reward can be in the personal satisfaction in a job well done.

Then there is junior leadership for young people full of plans, hopes, ambitions and dreams of the rapidly approaching future. Helping on the committees, program planning Busy Macks 4-H club

Other officers are Susan Devine, vice president; Ann Sieica, not only in community activities, but also in government Bowers, reporter, and Joseph Brehms, sergeant-at-arms.

The club planned promotion-activities for 4-H week and organization like 4-H to back me up. I can't help but be a better person tomorrow.

Select New 4-H Club Agent

Lowell Pierce to Take Calumet County Post on Feb. 1

Chilton—Lowell Pierce, 28, Oregon, Wis., will take over the position of Calumet county 4-H club agent Feb. 1. He will succeed Robert Haile who has resigned to accept a similar post in Michigan.

Pierce was hired at a meeting of the county agricultural committee Friday evening. He is completing work on his master's degree which will be awarded by the University of Wisconsin at the end of the current semester.

Pierce is married and has three children ranging in age from three years to three months.

Happy Macks Name State of Officers

Mackville — Kathy Brehms was elected president of the Busy Macks 4-H club

Other officers are Susan Devine, vice president; Ann Sieica, secretary-treasurer; Patricia Bowers, reporter, and Joseph Brehms, sergeant-at-arms.

The club planned promotion-activities for 4-H week and organization like 4-H to back me up. I can't help but be a better person tomorrow.

Seek Better Ways To Move Fresh Produce to City

Washington — The agriculture department is making new appeals for improvements in facilities for marketing fresh fruits and vegetables in the nation's urban centers.

Studies show, it says in a marketing report, that many of these markets are inefficient. As a consequence, the department says, retail prices are higher than they should be, with both the consumer and the producer suffering.

The department says, for example, it now costs \$27 million a year to move fresh produce through the New York City market. It estimates that \$9 million of this could be saved if more efficient facilities were established.

Stable Price on Soybeans Seen In USDA Report

Washington — The agriculture department sees little chance of prices of this year's soybean crop advancing in much above the support level averaging \$2.04 a bushel.

Prices have been at about the support level, but 23 cents lower, because of the late harvest and the tendency for producers to hold beans," the department said in a market report.

"This will mean larger margins later which will tend to picture changes greatly."

Safety Major Project of 4-H Members

Clubs Strive to Make Community Better Place to Live

Outagamie county 4-H members and leaders strive to make their community a better place to live. Since there are over 1,000 highway accidents and several thousand home accidents in the county each year 4-H clubs spend much time on safety.

The members receive help from insurance companies, traffic officials and the County Safety council. The safety programs are based on reminding people to practice and preach safety.

Each year a safety program is set up which will allow all 4-Hers a chance to do something in promoting highway safety. The members take part in posters and speaking contests, booths, slogans, and the big safety day.

Where the safety king and queen are crowned and the clubs in the county enter safety floats.

All of the 4-H safety events limit any seasonal upswing in prices. The upswing will be small unless the fats and oil picture changes greatly."

are concluded each year with the 4-H safety banquet where outstanding safety minded members and clubs and safety friends of 4-H are honored.

Heavy Equipment requires a tractor to have Power and Backbone!

INTERNATIONAL® 350 UTILITY
has more on-the-job power and stamina for the LONG PULL

Over 1,000 additional pounds over similar type tractors are built in the 350 Utility. Stronger power train, stronger chassis, stronger front-end — all the possible trouble spots are protected when you add heavy equipment to the 350. The powerful 350 Utility is built to take it — to give you more drawbar pull — over 39 horsepower — more tractor for the investment. And it pays big dividends — more work on more jobs for lower cost per job — lasting power and stamina for the LONG PULL!

Big Cost-Cutting Features:
Over 1,000 extra, built-in pounds over similar type tractors assures both sure-footed traction and stamina for the LONG PULL.
Torque Amplifier drive matches speed and power to the job... boosts pull-power 45% on the go without shifting gears...

We can arrange a demonstration on your own job... Stop in or call, today!

and there's ten speeds forward, two reverse. Switch equipment in seconds with Fast-Hitch... Just Back — Hitch — and Go To Work! New Hydra-Touch hydraulic system for fast, exact control of three two-way hydraulic cylinders.

Our Shop Service Will Save You Money
Our shop service will put your farm equipment in tip-top running order, ahead of season. Preseason servicing is the stitch in time that prevents costly field breakdowns and delays. debates on this law, their strat-
egy would be to drop out of the
communist party. Actually,
they went further. They dis-
solved the communist party.
But nobody with any experi-
ence was fool enough to believe
that those who repudiated com-
munism ceased to be commu-
nists and traitors. So any Amer-
ican worker who has to belong
to any communist-front union
is obliged by the law of the
land, laid down by these devi-
sive minds on various benches,
to maintain his membership
and give his support to the
communist movement until
each individual red official of
his union had been laid by the
heels.

Meanwhile, and the process
has taken years, the supreme
court has been throwing deci-
sions in favor of the traitors in
every field of controversy. Al-
ways the traitor gets the bene-
fit of the doubt from the su-
preme court.

Has to Sleep
So what chance has a poor
faceless fool of a wage-earner
to beat the enemy by himself
in his union? He has to sleep
some time. He can't spend all
his earnings on lawyers and
transcripts.

The unions used to howl with
good reason, that the individual
toiler was a pygmy compared
to the corporate giant of U.S.
Steel or General Motors. But is
he any bigger by comparison
with the United Auto Workers
whose "public review board"
in Detroit has only just now
ruled that "former" commu-
nists can hold union office?

This board is not a part of the
UAW, itself. No. It was set up
outside the UAW with a super-
cilious seeming of dignity and
pompous importance among
men, to decide what the UAW's
own rules meant. By the time a
worker's rights have been chiv-
vied that far over hill and dale
by a calculated bureaucracy,
does it still appear that the poor
slob has any right to a day in
the public courts?

Corrupt Courts
The basic outrage of all this
lies in the decisions of bad men
in black robes sitting in many
corrupt public courts that un-
ions had a right to make their
own laws and to operate courts
with authority to inflict terri-
ble punishments on citizens for
"crimes" which were not at all
offensive against public law.
Indeed some of the "crimes"
of the union jurisprudence
would be regarded as noble
conduct by any decent stand-
ard of citizenship. Suppose a
house-painter, for example, re-
fuses to sneak out under cover
of darkness and smear black
paint on the simple family
home of a fellow-citizen who
has newly painted his own
house in his spare time. That
do-it-yourself job would be
scabbing under union law.

Bosses of the Painters' union
could order out their members
to defile this fellow citizen's
dwelling.
Suppose a union painter
would report the whole deal to
the grand jury. He would be
guilty of disruptive conduct
against his union and he could
be expelled for life. Expulsion
from one union means expul-
sion from every other union in
the entire United States. Under
total unionism, this man would
be ostracized from all lines of
work for the rest of his life.
And the courts of the public
jurisprudence have washed
their hands of this outrage be-
cause the offender must go first
before the executive board,
composed of the gangsters who

ordered the dirty job done and
try to justify his refusal.
The law-books and constitu-
tions of unions are obsessed
with the subject of penalties
and punishments. Freedom of
speech is mocked "Disruption"
and "dissension" are forbidden.
And the public courts flog peti-
tioners out into the streets to
be stoned so to speak if not al-
ways literally because the law
has granted these rackets an
authority never intended by the
constitution or the people of the
United States.
(Copyright 1958)

Learn by Doing Is the Keystone of 4-H club activities. One of the most effective devices for developing this program is the schedule of demonstrations prepared each year by club members. Displaying her knowledge of home furnishing in a demonstra- tion is Polly Webb, 739 John street. Observing is Jane Kupper, 22 Cherry court. Both girls are members of the 4-Cs 4-H club, one of the several urban clubs in the county. (Post-Crescent Photo)

Demonstration Method Used to Teach 4-H Members New Practices

The 4-H demonstrator tells and shows his audience how to carry out an approved or rec- ommended practice. The dem- onstrator goes through the en- tire procedure in a logical man- ner and when completed gives a summary and shows the au- dience a finished product.

A good demonstrator is a salesman selling his audience on an idea.

The demonstration method is one of the most effective teach- ing methods. As the old saying goes "one picture is worth 1,000 words," the 4-H demonstrator him needed confidence in his ability to perform before a group. The chance to think, act and talk while standing before a group helps boys and girls develop into leaders of tomor- row.

Each club member gives a demonstration sometime during the club year at a local club meeting and on July 2 mem- bers compete in the county 4-H demonstration contest. Prizes are awarded based on the qual- ity of the demonstration and the top older demonstrators are usually invited to present their demonstrations at the state fair.

Awards are second to the experience obtained by the member. Many shy 10, 11, and 12 year old boys and girls each year gain a great deal of confi- dence in themselves by giving a 4-H demonstration either at the local club meeting or at the county contest.

Last year's tests by F. W. Duffee and M. F. Finner in- cluded a heavy duty field culti- vator 18-inch sweeps, a disc- plow, and a disc tiller.

On Sod And Quack
These machines were tested in combination with dalapon weed killer. The fields were old alfalfa-brome sod with a good growth of quackgrass and other weeds.

The disc-plow was the best implement from the standpoint of performance. It produced a very rough-looking field with many clumps which dried easily. The drying helps to kill the sod and the rough surface re- duces erosion.

The field cultivator and disc tiller didn't completely sever all the roots of the sod. Where dalapon was used the 18-inch sweeps did a very good job, but the disc-plow did the best job in unsprayed parts of the field.

4-H Members Have Fun as Well as Work

Summer Camping Session Highlights Year's Activity

The old saying "All work and no play makes Jack a dull boy" holds true in the 4-H pro- gram.

One of the times for fun is the 4-H camping session. The Outa- gamie county 4-Hers enjoy camping experiences with boys and girls from Snawano county.

The members attend camp three days each summer and swim, square dance, and take part in craft activities. For many members it's the first time away from home.

Each club and member has a chance to take part in the county 4-H fun nights, about the Fourth of July and around Hal- loween. Many new friends are made and many new games are played but most of all it's a chance for about 300 4-Hers to get together and have fun. Each club has a recreational

program of its own. Wiener roasts, camp fires, family pic- nics, and toboggan parties are conducted.

Recreation, an important part of the 4-H program, provides the oil that tends to keep the entire program rolling along smoothly over the year.

Great New Line of CASE® Spreaders

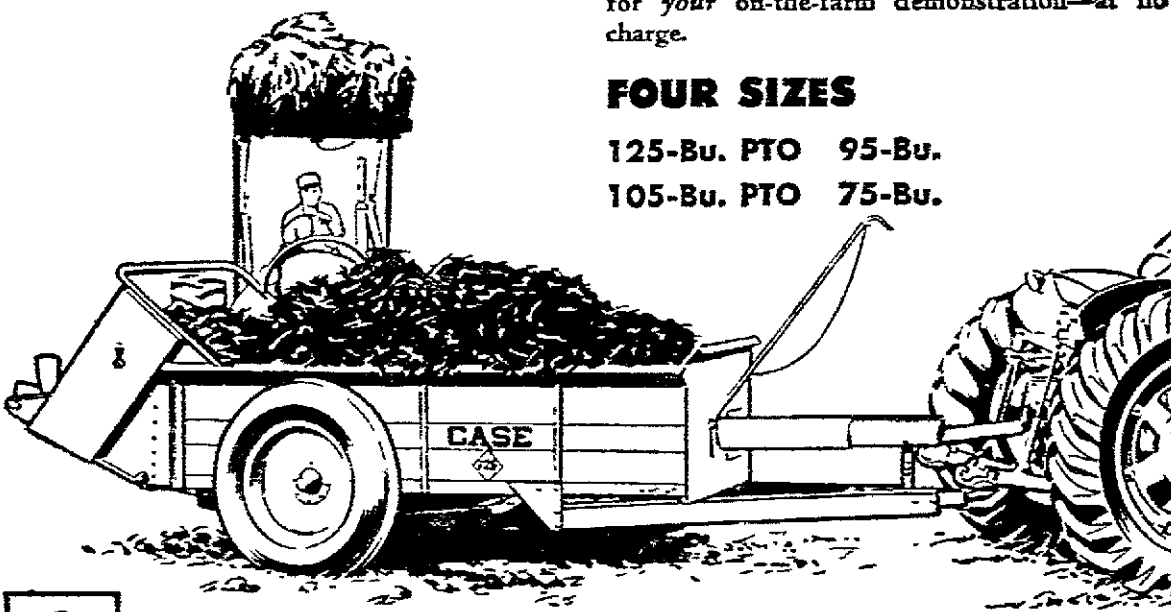

**ONLY
CASE® Dealers
DARE
to Make This
Demonstration Offer!**

Now you can have a Case Manure Spreader demonstration right on your own farm. Just call up, or drop in at the store. Only Case dealers DARE to make such a demonstration offer! And we dare only because we are sure that the four new Case Spreaders are built to take it.

Just call up. We'll bring a Case Spreader to your farm. We'll give it the slam-bang loading treatment . . . the rough-road hauling test with big, heaping loads. You can hitch on with your own tractor and see how easily the Case Spreader pulls, how fine it shreds, how evenly it spreads. Notice how smoothly the spreading mechanism runs—like a sewing machine! That's due to smooth, shell-molded sprockets, heavy roller chains and anti-friction bearings. Call up today for your on-the-farm demonstration—at no charge.

Board Levies Penalty on Contractor

Deducts \$296 From Money Owed for Sewer, Water Work

A penalty was levied Tuesday against a city contractor by the board of public works.

A total of \$296.28 was deducted from the \$4,745.60 the city owes Joseph Van Daalwyk for sewer and water lateral installations on E. McArthur street between N. Oneida street and N. Morrison street.

The deduction was the result of a complaint to the board by Plumbing Inspector Reginald Gloudemans.

Gloudemans told the board large chunks of rock and stone were found actually touching sewer and water laterals installed by Van Daalwyk. The area above such pipes for a distance of at least six feet, it was said, must, by contract specifications, be protected with sand fill.

Mitigating Circumstances Van Daalwyk admitted the large chunks were on or near pipes along the street, but said there were mitigating circumstances.

The sides of the cut in which he had to work, he said, were built up by the city with fill material like broken curb and sidewalks. Sand had to be stockpiled along the sides to fill the lateral trenches and was pushed into the trenches by a bulldozer. In the pushing, it was probable, he said, that the large chunks unknowingly were made part of the sand fill.

The computation of \$296.28 as the shortage to the city was made by Director of Public Works Edwin J. Duszynski. Van Daalwyk told the board he had no complaints. Duszynski said the nature of the street was changed with fill between the time Van Daalwyk bid and the start of work.

Uncovered By Contractor Gloudemans said the infraction was called to his attention by John McHugh, another contractor, who uncovered the laterals while installing a storm sewer across them.

There was some talk by board members that the city ought to have inspectors on hand at all times during construction of sewers, but it was pointed out the state has such inspectors on its projects and still has "bad luck."

Gloudemans, who is required to inspect all installations of laterals, cannot be on hand during all construction during the peak season, it also was pointed out.

Four Youths Admit Rural School Thefts

Green Bay — Three 15-year-old boys and an 18-year-old have admitted to Brown county Sheriff Arley Skenandore a series of rural school burglaries.

Two of the 15-year-olds and the older youth admitted breaking into the Lannoye school, near Isaac, and taking two portable radios, a camera and about \$3 in cash from a student fund. One of the 15-year-olds was involved in both burglaries of the Lannoye school, but was not involved in the Brown county burglaries, Skenandore said.

The youths said they burglarized the Lannoye school on Halloween and again about a month later.

In the Brown county burglaries, the youths robbed three rural schools, stealing a slide projector and an electric phonograph. The loot was recovered at the 18-year-old's home.

The boys were arrested in connection with theft of farm equipment from fields west of Green Bay. The group then sold the equipment to a junk dealer.

The 18-year-old was to be brought into Green Bay municipal court while the other youths will be processed in juvenile court, Skenandore indicated.

Outagamie county Sheriff Donald Heinritz said his investigators probably will talk to the boys about the Lannoye school thefts.

Mrs. Zoe Cloak to Direct Green Bay Theater

Mrs. Zoe Cloak, Attic theater director, will serve as guest director for an arena style play to be presented Feb. 22 through 26 by the Green Bay Community theater. Mrs. Cloak, long active in dramatic affairs, has been Attic theater director for seven summer seasons.

Option to Buy School Land Given Board

An option to buy 20 to 30 acres just south of Highway 41 for a future junior high school was presented to the board of public works Tuesday.

It is offered by Mr. and Mrs. Paul Rohloff for \$2,000 an acre. The couple said in the option they want 29 percent of the sale price in down payment and rest in five annual installments at 5 percent interest.

The land is between N. Meade street and N. Drew street extended and south of the highway.

Board members put off action pending their talk Jan. 20 with the board of education.

The school board Dec. 9 said it would seek a meeting with the works board to talk about the site.

The works board earlier rejected an option obtained by the school board to buy land for the junior high school about a mile north of the highway. Board members said it was too far out of the city.

Waupaca Police Chief Resigns

Richard Bucholtz To End 39 Years Of Public Service

Waupaca—Police Chief Richard Bucholtz, 61, will retire at the end of the month. Tuesday night his resignation was accepted by the city council by a 9 to 1 vote with Ald. Michael Drozd dissenting.

Bucholtz has been a police chief in Waupaca for seven years. He has had a career of 30 years in police work.

He said his long service was the main reason for retiring from public duty. After a rest and vacation, he plans to become a private investigator.

Commendation Letter The council directed the clerk to forward a letter of commendation to Bucholtz.

Chief Bucholtz started as a patrolman in Milwaukee in 1919. In 1924 he became a moral squad detective and was made a uniform sergeant in Division 12. Six months later he was promoted to special investigator.

Formal Okay Asked for New Oneida Bridge

Accept Report From Tenor Firm On Back Wages

Formal approval for a \$739,301 new S. Oneida street drawbridge will be asked Jan. 15 of the city council by the board of public works.

The move received unanimous council approval at an informal committee-of-the-whole meeting Dec. 18 and formal approval is expected.

The new bridge will be about 60 feet west of the present span, which will be dismantled. It will have a 36-foot-wide roadway, with a 6-foot sidewalk on the east side.

The plan entails rebuilding of approaches with 44-foot-wide concrete slabs nine inches thick. Fenner-Brey Engineering company, Manitowish, included the plan with two others in recommending it in its study of what could be done about the old bridge.

Other Actions In other actions, the works board:

Accepted a report from Tenor Brothers Construction company, Algoma, of the amounts of back wages that were due three employees because of admitted violations of their city contract's wage scale provisions.

The firm, the council has decided, will be banned from bidding in Appleton for two years as a result of the contract infractions.

Authorized City Clerk Elden Broehm to advertise for bids on inlaid linoleum for the main floor of city hall.

Authorized Building Inspector Walter Bogan to buy a duplicating machine from Fox River Office Equipment company for \$357.

Workmen's Compensation Ordered \$21,554 paid Hardware Mutuals Insurance company for the 1958 premium on the city's workmen's compensation insurance. If the 1957 experience, as yet uncompiled, shows the payment too much, money will be refunded.

The board put off until next Tuesday any discussion of the adjustment of assessment for improvement work on N. Division street and of a parking restriction on the city hall lot.

Works Director Edwin J. Duszynski said concessions from assessment are due two N. Division landholders, the Chicago and North Western Railway company and Percy Sharpe.

Menasha Bank Stockholders Enlarge Board

Menasha — Stockholders of the First National bank Tuesday afternoon elected Albert C. Hilde and Emmett W. Below directors and also reelected seven other directors.

Those reelected are George Banta, Jr., Leo Croy, William K. Gerbrich, R. M. Sensenbrenner, D. C. Shapard, Jr., Thomas D. Spalding and George A. Whiting, II.

Hilde has operated his own drug store here since 1941 and previous to that had been a pharmacist at two Neenah drug stores for 10 years. He also is a past president of the Neenah-Menasha Chamber of Commerce of which he had been a director for many years.

He recently opened a branch prescription service at the Medical Associates clinic.

Finance Vice President Below is vice president of the finance division of Marathon, a post to which he was elected last August. He has been with Marathon since 1934 and was controller from 1951 until being named vice president.

The directors will meet later to name bank officers.

The bank listed deposits totaling \$7,610,571 and total resources of \$8,425,106 at the end of the year which was described as the best in the bank's history.

Share Prices Move Lower Oils, Aircrafts And Motors Dip In Early Afternoon

New York — Oils, motors and aircrafts took losses early this afternoon as the stock market drifted off after an early spurt to the upside.

Losses of key stocks ran from fractions to around a point. Prices were narrowly higher at the opening as a spill-over from Tuesday's rally on prospects of greater defense spending brought a 2-minute lag in the ticker tape.

Profits were taken and various items of discouraging business news depressed sentiment.

Among them was news that Chrysler would lay off 4,000 workers and U. S. Rubber 1,300 in the Detroit area and a drop in crude oil prices in the southwest.

United Aircraft lost about a point. Boeing was off a major fraction.

Gulf Oil dropped about three then halved its loss. Texas Co. and Standard Oil New Jersey were behind a little.

Chrysler lost a point. U. S. Rubber lost a fraction and Goodrich and Goodyear held firm.

Bethlehem, Republic Steel and Youngstown Sheet eased but U. S. Steel held firm. General Motors and Ford dropped fractions.

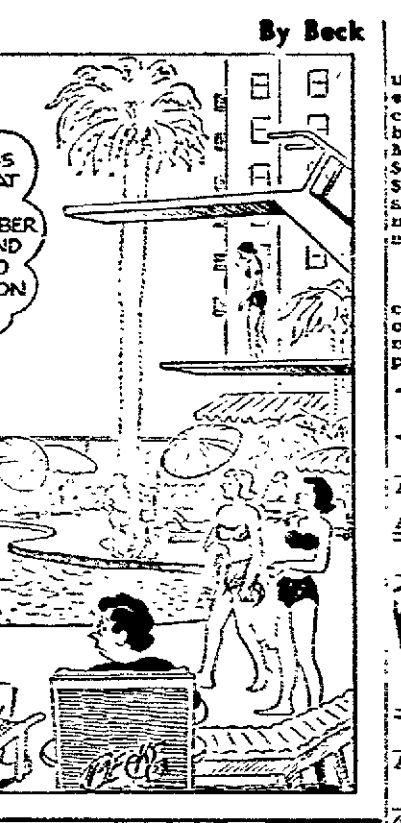

Fractional gains were made by Caterpillar, American Telephone, Dow Chemical and Southern Railway.

Westinghouse Electric dropped around a point. Smaller losses were taken by General Electric, John-Manville, American can and Chesapeake & Ohio.

U. S. government bonds moved a bit higher.

Wisconsin Cheese Madison — American cheese market steady; demand fair to good; open market interest light; offerings small styles ample; state brand large styles more than ample. Prices: cheddars 34-35; daisies 36-37; long-horns 36-37; midgets 37-39.

Chicago — USDA — Live poultry steady; Tuesday's receipts were 166,000 lbs; wholesale buying prices unchanged; heavy hens 15-16; light hens 12-13; old roosters 12-13.

Jerry Smith Rehired for Another Year

Recreation Head To Serve Fourth Consecutive Term

Menasha — Menasha Recreation Director Jerry Smith was rehired by the recreation board Tuesday afternoon for his fourth year as Menasha recreation director. Smith's annual salary will be \$5,512.

Smith also was authorized to serve on the National Recreation commission's advisory committee during 1958.

The recreation director reviewed the council's action in placing the pool supervisors on a weekly salary, revising the wages of the pool attendants and ticket takers, and the deletion of salary increases for summer staff members.

The December program report listing 14 activities of the recreation department, and an approximate summary of recreation and pool expenditures in 1957, were discussed by the board.

One-half of the cost of a pool table for the Memorial building game room will be paid by the board with the other half to be paid by the "Blue Inn" committee.

A request from the Wisconsin Recreation association asking Menasha to hold the 1958 state recreation cage tournament was declined because it was held in Menasha in 1956 and the department is not in a position to devote the necessary time to plan the event.

Initial Sewage Pumping Station Plans Ordered

The city engineering department was instructed Tuesday to prepare plans for a sewage pumping station and pressure line on the northwest side.

An engineering firm which will draft final plans will not be selected until the preliminary plans are finished and Director of Public Works Edwin J. Duszynski completes a canvass to find what firms are available.

The pumping station and pressure line will open for development more than 250 acres of land at the northwest limits.

One board member said he believed the pumping station would cost about \$80,000.

LEGAL NOTICES

ANNUAL MEETING NOTICE

Policyholders of the Baboiz Mutual: Town Fire Insurance Company are hereby notified of the annual meeting, which will be held Tuesday, January 21, at 1:00 p.m., 225 West College Avenue, Appleton, Wisconsin. Policyholders are cordially invited.

Edmund A. Baboiz, Secretary.

STATE OF WISCONSIN

OUTAGAMIE COUNTY COURT

U. S. Military Setup Enmeshed In Bureaucracy

Civilian Control
Would Slow Work
If War Were Declared

BY DAVID LAWRENCE
Washington — It's a lucky thing the United States has not had to fight a world war in the last few years.

For the present system, whereby the heads of the armed services are enmeshed in a bureaucratic apparatus of civilian control, would make war operations far less effective than they were in either of the two world wars in which the United States has been engaged.

Today there are four separate armed services represented on the U. S. joint chiefs of staff and four separate civilian departments dealing with defense problems. "Unification" was the cry in 1947 and 1949, and "simplification" was the slogan in 1953 when congress passed a so-called military reorganization bill, but the main weaknesses have not been cured.

"The principal fault is that the military commanders have been removed farther than ever before from the commander-in-chief of all the armed forces — namely, the president, who under the constitution has the full responsibility for military operations in time of war."

No Planning Unit
Today the joint chiefs of staff is neither an operating body nor a planning unit. The heads of the army, navy and air force, moreover, are not statutory members of the national security council. In time of war a commander in a far-off theater who has all three services under him is required by law to communicate through a civilian agency — the department of defense — before reaching the commander-in-chief.

During the last global war, the late President Franklin D. Roosevelt had a personal chief of staff, Adm. William Leahy, who acted as a liaison with the military heads of the armed services. At that time the air force was not yet officially separated from the army but the late Gen. "Hap" Arnold, chief of staff, was by instruction of the president required to attend all sessions of the joint chiefs of staff. When it came to voting, however, Gen. George Marshall, chief of staff of the army, always had Gen. Arnold's proxy in his pocket.

There were thus in fact only two military chiefs — the head of the army and the head of the navy — and they had direct access to the president of the United States. Sometimes they didn't even bother to consult the civilian heads of their respective departments. The late Adm. Ernest King, who was chief of naval operations during virtually the entire war, once told this writer that he didn't feel obligated to tell the secretary of the navy, the late Frank Knox, in every case just what naval action was planned. He never told him, for instance, of the intention to give battle at Midway. His argument was that a battle plan had to be kept secret and not a single individual was to be told about it, ahead of time unless he had to be in some way a part of the operation.

Extreme Case
This may be an extreme case of separation of the military and civilian in time of war, but it illustrates the compactness of the operational command, which was in vogue during World War II and which has been considerably impaired by the statutes passed since then.

The planning that has to be done nowadays by a joint staff composed of representatives of all four services — army, navy, air force and marine corps — can still be done by subordinate officers of high rank while the procurement and fiscal policies and paper work of the military departments can be consolidated and money saved in a single department headed by a civilian secretary and adequate assistants.

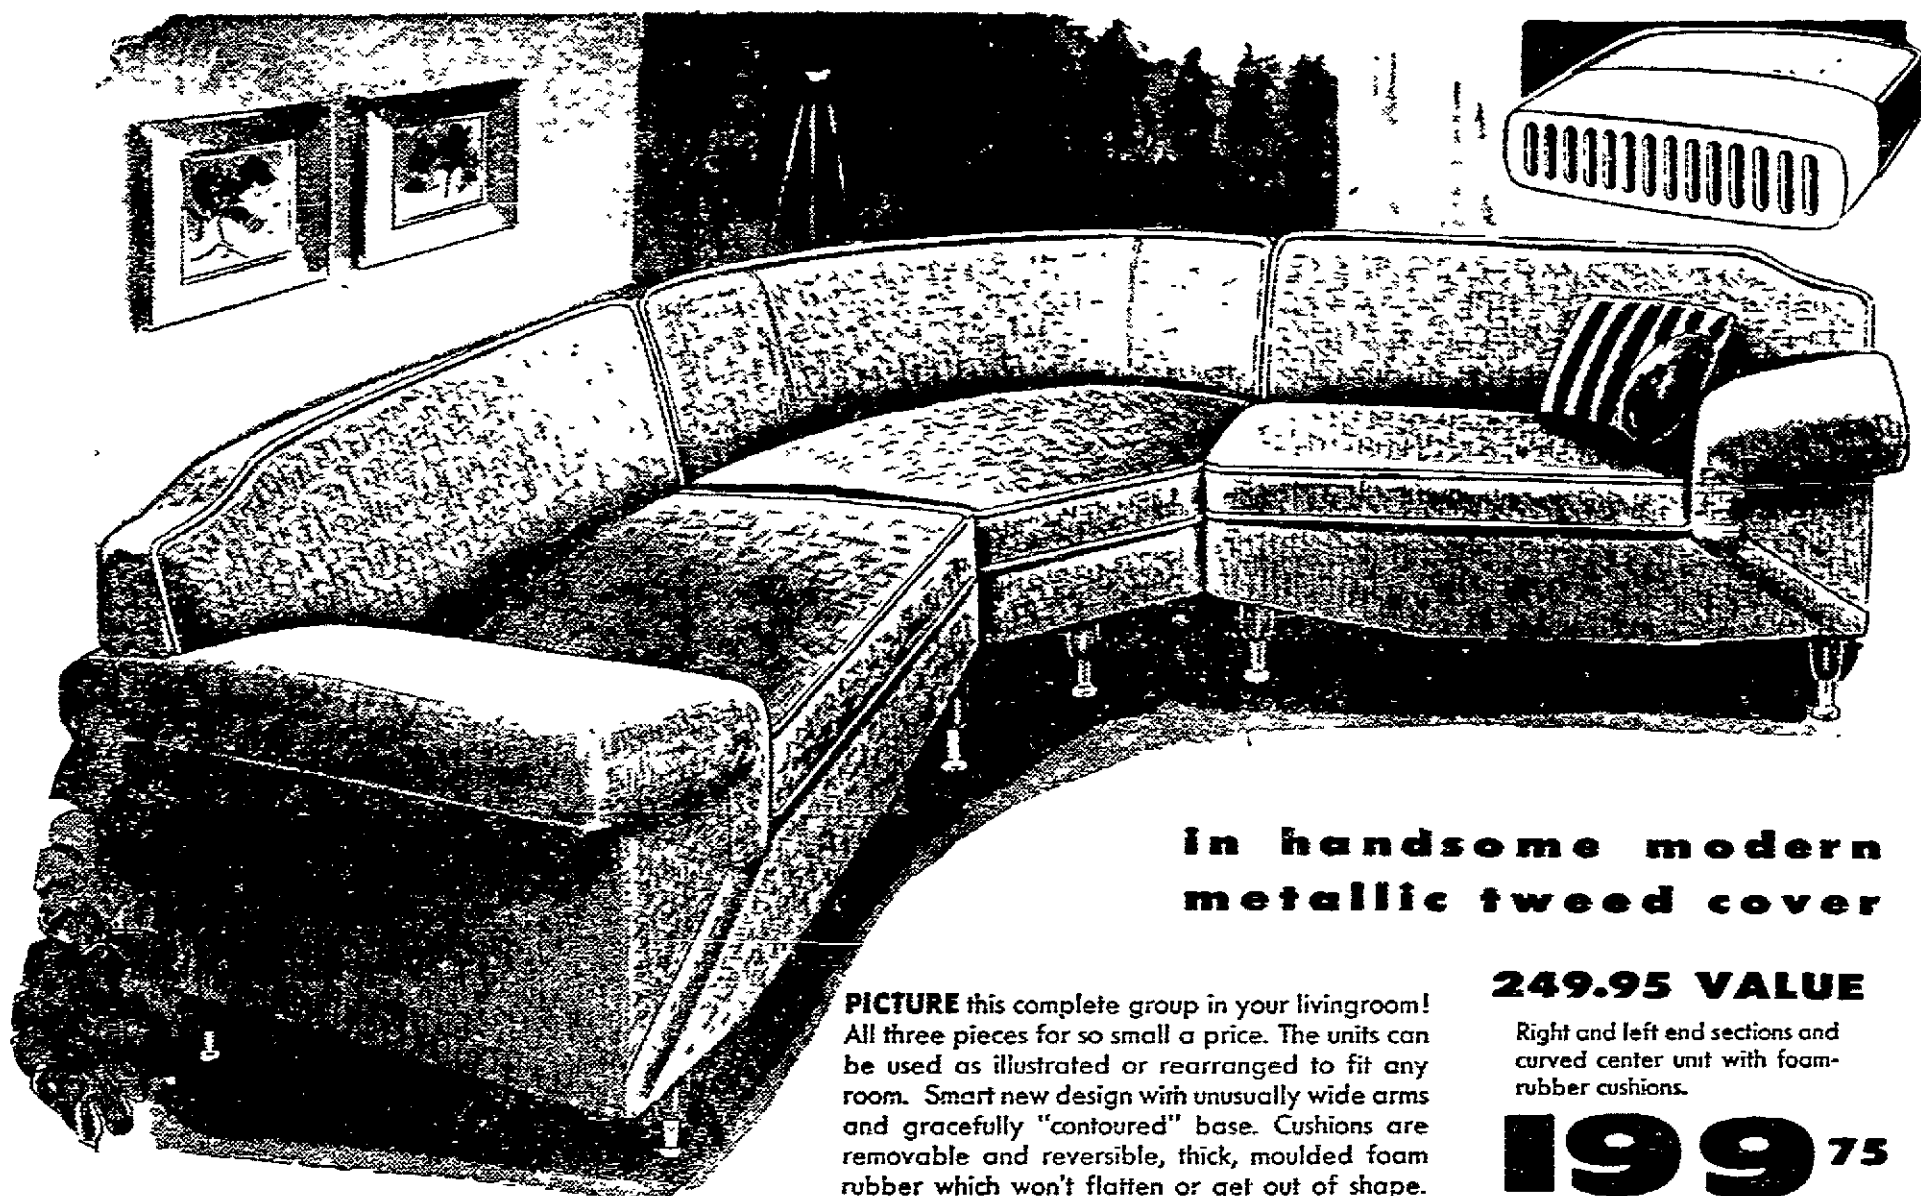

The three chiefs of the principal armed services should be the top military advisers of the president and a fourth officer should be a secretary-general and not a "chairman." The "chairman" idea leads only to the Prussian general-staff concept of a single chief that worked so badly for the Nazis in World War II. Three minds are better for consultation with the president than one. Three men who have risen to the top in their respective services and who have direct command responsibilities should sit next to the president for command purposes.
